Item 2. Dissenters' Right of Appraisal

Instances of appraisal right of dissenters with respect to any matter to be acted upon provided in Section 80 of the Revised Corporation Code of the Philippines:

- (a) In case any amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholders or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence;
- (b) In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets;
- (c) In case of merger or consolidation; and
- (d) In case of Investment of corporate funds for any purpose other than the primary purpose of the corporation.

In instances wherein the stockholder has voted against a proposed corporate action, the statutory procedures required to be followed by dissenting security holders in order to perfect such rights are, as follows:

- (a) The dissenting stockholder shall make a written demand on the corporation for the payment of the fair value of shares held within thirty (30) days from the date on which the vote was taken. Provided, that failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented, the corporation shall pay the stockholder, upon surrender of the certificate or certificates of stock representing the stockholder's shares, the fair value thereof as of the day before the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action;
- (b) If, within (60) days from the approval of the corporate action by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation, and the third by the (2) thus chosen. Then findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within (30) days after such award is made: Provided, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment: Provided further, that upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer the shares to the corporation;

There are no matters or proposed corporate actions to be taken up during the annual stockholders' meeting which may give rise to a possible exercise of security holders of their appraisal rights under Title X of the Corporation of the Philippines.

THE STOCKHOLDER MUST VOTE AGAINST THE PROPOSED CORPORATE ACTION IN ORDER TO AVAIL HIMSELF OF THE APPRAISAL RIGHT

Item 3. Interest of Certain Persons in Matters to be acted upon

Each of the incumbent Directors or Officers of the Corporation since the beginning of the last fiscal year or any associate of any of the foregoing persons do not have any substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon.

None of the incumbent Directors of the Corporation has issued any notice in writing of an intention to oppose any action to be taken by the registrant at the meeting.

B. CONTROL AND OTHER INFORMATION

Item 4. Voting Securities and Principal Holders Thereof

(a) Class of Voting Shares as of July 31, 2023:

3. Kenneth T. Gatchalian - Member

Information required by SEC under SRC Rule 38 on the nomination and election of Independent Directors.

A. Definition

1. An independent director is a person who, apart from his fees and shareholdings, is independent of management and free from any business or other relationship which could, or could reasonably be perceived to, materially interfere with his exercise of independent judgment in carrying out his responsibilities as a director in the corporation and includes, among others, any person who:
 - 1.1 Is not a director or officer or substantial stockholder of the corporation or of its related companies or any of its substantial shareholders except when the same shall be an independent director of any of the foregoing;
 - 1.2 Does not own more than two percent (2%) of the shares of the corporation and/or its related companies or any of its substantial shareholders;
 - 1.3 Is not a relative of any director, officer or substantial shareholder of the corporation, any of its related companies or any of its substantial shareholders. For this purpose,

relatives include spouse, parent, child, brother, sister, and the spouse of such child, brother or sister;

- 1.4 Is not acting as a nominee or representative of any director or substantial shareholder of the corporation, and/or any of its related companies and/or any of its substantial shareholders, pursuant to a Deed of Trust or under any contract or arrangement;
 - 1.5 Has not been employed in any executive capacity by the corporation, any of its related companies and/or by any of its substantial shareholders within the last two (2) years;
 - 1.6 Is not retained, either personally or through his firm or any similar entity, as professional adviser, by the corporation, any of its related companies and/or any of its substantial shareholders, within the last two (2) years; or
 - 1.7 Has not engaged and does not engage in any transaction with the corporation and/or with any of its related companies and/or with any of its substantial shareholders, whether by himself and/or with other persons and/or through a firm of which he is a partner and/or a company of which he is a director or substantial shareholder, other than transactions which are conducted at arm's length and are immaterial.
2. No person convicted by final judgment of an offense punishable by imprisonment for a period exceeding six (6) years, or a violation of this Code, committed within five (5) years prior to the date of his election, shall qualify as an independent director. This is without prejudice to other disqualifications which the corporation's Manual on Corporate Governance provides.
 3. Any controversy or issue arising from the selection, nomination or election of independent directors shall be resolved by the Commission by appointing independent directors from the list of nominees submitted by the stockholders.
 4. When used in relation to a company subject to the requirements above:
 - 4.1 Related company means another company which is: (a) its holding company, (b) its subsidiary, or (c) a subsidiary of its holding company; and

 - 1.3 He shall be twenty-one (21) years old up to seventy (70) years old, however, due consideration shall be given to qualified independent directors up to the age of eighty (80);
 - 1.4 He shall have been proven to possess integrity and probity; and
 - 1.5 He shall be assiduous.
2. No person enumerated under Section II (5) of the Code of Corporate Governance shall qualify as an independent director. He shall likewise be disqualified during his tenure under the following instances or causes:
 - 2.1 He becomes an officer or employee of the corporation where he is such member of the board of directors/trustees, or becomes any of the persons enumerated under letter (A) hereof;
 - 2.2 His beneficial security ownership exceeds two percent (2%) of the outstanding capital stock of the corporation where he is such director;
 - 2.3 Fails, without any justifiable cause, to attend at least 50% of the total number of Board meetings during his incumbency unless such absences are due to grave illness or death of an immediate family;
 - 2.4 Such other disqualifications that the Corporate Governance Manual provides.

C. Number of Independent Directors

All companies are encouraged to have independent directors. However, issuers of registered securities and public companies are required to have at least two (2) independent directors or at least twenty percent (20%) of its board size, whichever is the lesser.

D. Nomination and Election of Independent Directors

1. The Nomination Committee (the "Committee") shall have at least three (3) members, one of whom is an independent director. It shall promulgate the guidelines or criteria to govern the conduct of the nomination. The same shall be properly disclosed in the corporation's information or proxy statement or such other reports required to be submitted to the Commission.
2. Nomination of independent director/s shall be conducted by the Committee prior to a stockholders' meeting. All recommendations shall be signed by the nominating stockholders together with the acceptance and conformity by the would-be nominees.
3. The Committee shall pre-screen the qualifications and prepare a final list of all candidates and put in place screening policies and parameters to enable it to effectively review the qualifications of the nominees for independent director/s.
4. After the nomination, the Committee shall prepare a Final List of Candidates which shall contain all the information about all the nominees for independent directors, as required under Part IV (A) and (C) of Annex "C" of SRC Rule 12, which list, shall be made available to the Commission and to all stockholders through the filing and distribution of the Information Statement, in accordance with SRC Rule 20, or in such other reports the Corporation is required to submit to the Commission. The name of the person or group of persons who recommended the nomination of the independent director shall be identified in such report including any relationship with the nominee.
5. Only nominees whose names appear on the Final List of Candidates shall be eligible for election as independent director/s. No other nomination shall be entertained after the Final List of Candidates shall have been prepared. No further nominations shall be entertained nor allowed on the floor during the actual annual stockholders' meeting.
6. Election of Independent Director/s
 - 6.1 Except as those required under this Rule and subject to pertinent existing laws, rules and regulations of the Commission, the conduct of the election of independent director/s shall be made in accordance with the standard election procedures of the company or its by-laws.
 - 6.2 It shall be the responsibility of the Chairman of the Meeting to inform all stockholders in attendance of the mandatory requirement of electing independent director/s. He shall ensure that independent director/s is elected during the stockholders' meeting.
 - 6.3 Specific slot/s for independent directors shall not be filled-up by unqualified nominees.
 - 6.4 In case of failure of election for independent director/s, the Chairman of the Meeting shall call a separate election during the same meeting to fill up the vacancy.

E. Termination/Cessation of Independent Directorship

In case of resignation, disqualification or cessation of independent directorship and only after notice has been made with the Commission within five (5) days from such resignation, disqualification or cessation, the vacancy shall be filled by the vote of at least a majority of the remaining directors, if still constituting a quorum, upon the nomination of the Committee otherwise, said vacancies shall be filled by the stockholders in a regular or special meeting called for that purpose. An independent director so elected to fill a vacancy shall serve only for the unexpired term of his predecessor in office.

The procedures for the "Nomination and Election of Independent Directors pursuant to SRC Rule 38" are to be incorporated in the By-Laws of the Corporation. The Board of Directors approved the amendments to the Corporation's By-Laws to adopt SRC Rule 38 on December 14, 2004.

The By-Laws of the corporation were amended after the Stockholders' meeting on July 1, 2011 which includes the provisions of SRC Rule 38, as approved by the Board of Directors and Stockholders during the last Stockholders' meeting dated December 14, 2004.

F. Term Limits for Independent Directors

Pursuant to SEC Memorandum Circular No. 4 Series of 2017, the Commission in its en banc meeting on March 9, 2017 resolved to amend its rules on the term limit of independent directors as follows:

1. A company's independent director shall serve for a maximum cumulative term of nine (9) years;
2. After which, the independent director shall be perpetually barred from re-election as such in the same company, but may continue to qualify as a non-independent director;
3. In the instance that a company wants to retain an independent director who has served for nine (9) years, the Board should provide meritorious justification/s and seek shareholders' approval during the annual shareholders' meeting; and
4. Reckoning of the cumulative nine-year term is from 2012.

*ASM and Organizational Meeting

Item 16. Matters Not Required to be Submitted

There is no action to be taken with respect to any matter which is not required to be submitted to a vote of the stockholders.

Item 17. Amendment of Charters, By-Laws & Other Documents

Except for the following, no other amendment was made by the Corporation:

- Articles of Incorporation, Article 1V and to its By-Laws, Board of Directors Section 1, 8-13, as per Board Meeting held on December 17, 2004 and Stockholder's Meeting held thereafter, the same was approved by SEC on July 23, 2007 and October 11, 2007 respectively.
- The Board of Directors in its special meetings held last January 07 and 28, 2008 decided to amend the Primary and Secondary Purposes of the Articles of Incorporation of the Company and the same was approved by the stockholders during the annual stockholders' meeting held on November 20, 2008.

The Board amended the Primary Purpose of the Corporation, from a holding company to a company engaged in the business of mining and oil exploration considering that the government is currently enticing the business sector to develop the country's natural resources on gas and oil. In doing so, the Secondary Purpose of the Company stipulated in Paragraph 2 under the heading "Mining" shall

be taken out and inserted as its Primary Purpose instead. Then, the numbering of the Secondary Purpose shall be adjusted accordingly. This was approved by SEC on April 3, 2009.

3. Amendment of Articles of Incorporation due to change of principal office address from 22nd Floor Citibank Tower, 8741 Paseo de Roxas St., Makati City to 35th Floor, One Corporate Centre, Doña Julia Vargas Ave., cor. Meralco Ave., Ortigas Center, Pasig City was approved by SEC on June 26, 2013.

Item 18. Other Proposed Action

As of this report, there are no other matters which the Board of Directors intends to present or has reason to believe others will present at the meeting.

Item 19. Voting Procedures

An affirmative vote by the stockholders owning at least a majority of the outstanding capital stock shall be sufficient for the approval of:

- 1) Minutes of Stockholders meeting held on October 4, 2022;
- 2) Audited Financial Statements for the year ended December 31, 2022;
- 3) Ratification of Corporate Acts of the Board of Directors and Officers of the corporation;
- 4) Appointment of External Counsels;
- 5) Appointment of External Auditors;
- 6) Any other proposed action.

The method by which votes will be counted:

The holders of the majority interest of all outstanding stocks of the Corporation entitled to vote at the meeting present in present or by proxy, shall constitute a quorum for the transaction of business.

The holders of common stock are entitled to one vote per share, but in connection with the cumulative voting feature applicable to the election of directors, each stockholder is entitled to as many votes as shall equal the number of shares held by such person at the close of business on record date, multiplied by the number of directors to be elected. A stockholder may cast all of such votes for a single nominee or may apportion such votes among any two or more nominees. For the election of directors, the counting will be cumulative. The counting of votes will be done by the Corporate Secretary with the assistance of the representatives of the Corporation's stock transfer agent, BDO Unibank, Inc. All votes attaching to the shares owned by stockholders whose proxies were received by the Corporation will be casted in accordance with the instructions given or authority granted under proxies.

The Corporate Secretary shall record all the votes and proceedings of the stockholders and of the Directors in a book kept for that purpose.

Due to COVID-19 Global Pandemic, the Board of Directors of Wellex Industries, Inc. has decided to conduct the annual stockholders' meeting via remote communication like Zoom or its equivalent.

A stockholder who has the intention to participate in the Annual Stockholders' Meeting via remote communication or to exercise their vote in absentia or through proxy, should notify the Company by sending the required documents, such as proof of identity, ownership and other certification/information at wellexindustries.asm@gmail.com from September 11, 2023 to October 2, 2023 (10:00am).

A Stockholder may opt to cast his/her vote/proxy during the registration or until October 2, 2023. Note that only the ballot/proxy form of a successful registrant will be counted as a valid vote. Stockholders whose shareholdings are lodged with the Philippine Central Depository are reminded to secure a certification of your shareholdings from your respective stockbrokers.

Once the stockholder submitted the requested documents through email, the Company will forward it to the Company's stock transfer agent, BDO Stock Transfer, for validation.

If confirmed, that all are true and correct, ballot/proxy form submitted will be counted as a valid vote and a successful registrant will receive the instructions on how to access the livestream and its invitation link to the Annual Stockholders Meeting. For unsuccessful registrant, he/she will receive, either an email or a call from the Company for any deficient/pending documents that needs to be submitted.

Only stockholders who notified the Company of their intention to participate in the virtual meeting and have registered themselves or their proxies will be included in the determination of quorum.

The full details of the registration and voting procedures will be available on the Company's website, www.wellexindustries.com/annualstockholdersmeeting.html, on September 14, 2023.

We are not soliciting proxies.

Undertaking

Wellex Industries, Inc., as registrant will provide the stockholders of copy of SEC Form 17-A free of charge. Any written request for a copy of SEC Form 17-A shall be addressed to the Office of the Corporate Secretary c/o WELLEX INDUTRIES, INC., 35th Flr. One Corporate Center, Doña Julia Vargas Ave., cor. Meralco Ave., Ortigas Center, Pasig City, Philippines.

PART 2

MANAGEMENT REPORT AS REQUIRED BY SRC RULE 20 INCLUDING FINANCIAL INFORMATION FOR SECOND QUARTER OF 2023

BUSINESS AND GENERAL INFORMATION

1.) Brief Description of the General Nature and Scope of the Registrants Business and its Subsidiaries

Wellex Industries, Incorporated (the 'Parent Company') was incorporated in the Philippines on October 19, 1956. The parent company engaged primarily in the business of mining and oil exploration and was known as Republic Resources and Development Corporation (REDECO). The Parent Company extended its corporate life for another 50 years up to October 19, 2056 which was approved by the Securities and Exchange Commission (SEC) on July 20, 2007.

The Parent Company's shares are listed and traded in the Philippines Stock Exchange (PSE). It wholly owned Plastic City Industrial Corporation (PCIC). PCIC has ceased its manufacturing and commercial operations but PCIC subsidiaries have leased out their warehouse and building facilities.

The registered office address of the Parent Company is located at 35th Flr., One Corporate Center, Dona Julia Vargas Ave., cor. Meralco Ave., Ortigas Center, Pasig City, Philippines.

Plastic City Industrial Corporation

In November 1999, the Company formalized the entry of Plastic City Industrial Corporation (PCIC) into the Wellex Industries, Inc. family. PCIC was the Philippines' first fully-integrated manufacturer of plastic products used in a number of industries. From its humble beginnings as a plastic scrap palletizing operation in 1969, PCIC became the forefront of the plastics industry until year 2002, a year when the company was greatly affected by economic crisis. It was then the Company was forced to stop its operation.

PCIC's plants are located on a 50-hectare complex north of Metro Manila. Plastic City is an industrial metropolis in itself. It used to serve the demands of different sectors such as plastic packaging, invaluable house ware products, appliance and telecommunications accessories, industrial parts and pipes for waterworks, sewerage and telecommunications, and electrical conduit systems.

The PCIC subsidiaries stopped operations in 2002.

2.) Properties and Other Assets

Investment Properties

These are properties held primarily to earn rentals and for capital appreciation. The carrying amounts of these properties (net of accumulated depreciation and impairment loss) are shown below:

	Land	Land improvements	Building and improvements	Total
Net carrying amounts, 01/01/2022	₱974,016,347	₱-	₱48,890,261	₱1,022,906,608
Additions	-	-	-	-
Disposals	-	-	-	-
Other Movements	-	-	-	-
Depreciation	-	-	(2,893,995)	(2,893,995)
Net carrying amounts, 12/31/2022	₱974,016,347	₱-	₱45,996,266	₱1,020,012,613

Rental income earned on the above investment properties amounted to ₱20.05 million, ₱23.86 million and ₱29.88 million for the years ended December 31, 2022, 2021 and 2020, respectively. While direct cost and expenses incurred on the buildings amounted to ₱12.56 million, ₱9.47 million and ₱13.02 million

in 2022, 2022 and 2020, respectively, shown under “Direct costs and expenses” in the statements of comprehensive income.

In 2020, the group sold parcels of land with total carrying amount of ₱9,565,900 for a total consideration of ₱56,270,000 which resulted to a total gain of ₱46,704,100.

The carrying amount of the buildings being leased out is ₱27,035,257 and ₱26,212,361 as at December 31, 2022 and 2021, respectively.

No valuation of independent appraiser was conducted for the investment properties. The fair values of the investment properties were determined based on the market comparable approach that reflects recent transaction prices for similar properties. The aggregate fair values of the investment properties amounted to ₱3,543,635,160 and ₱3,378,711,000 as at December 31, 2022 and 2021.

Land with aggregate amount of ₱6,484,935 as at December 31, 2022 and 2021 was under litigation (Note 8 of Financial Statements). However, in 2022, the land was swapped with another property which is about the same size and location that was owned by certain individuals.

Except from restrictions described above, there are no other restrictions on the realizability of its investment properties and no other contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Fully depreciated investment properties still in use as at December 31, 2022 and 2021 amounted to ₱3,290,824.

The properties of Plastic City Industrial Corporation booked under Land are located in various areas but majority is located in Canumay, Valenzuela. Properties at any one time or another are subject, in the ordinary course of business, to certain liens and/or encumbrance in favor of their respective bank creditors on short term basis for short term bank facilities, whether or not there are outstanding obligations thereto. None of the stated properties are under any lease contract.

The company has no intention of acquiring property for the next twelve (12) months.

Interest in Joint Operation

The Group's investment in joint venture represents land contributed to the Joint Operation.

In July 1997, the Group, together with International Polymer Corp. (IPC), Pacific Rehouse Corp. (PRC) and Ropeman International Corp. (RIC), entered into a Joint Venture Agreement (the "Agreement") as Owners, with Philippine Estates Corporation (PHES), as Developer, for the development of Metrotech Industrial Park. Under the agreement, the owners contributed land with an approximate area of 29.5629 hectares located in Canumay, Valenzuela City, whereby PHES will develop into industrial estate in accordance with the plans mutually agreed by venturers.

The developer is entitled to forty percent (40%) of the net proceeds after deducting all relevant taxes, marketing and administrative expenses, and the remaining sixty percent (60%) of the shall constitute the owners share, divided proportionately to the areas of property contributed.

The carrying amount of investments in a joint venture is as follows:

	2022	2021
Cost		
Balance at beginning of year	₱590,214,111	₱590,214,111
Transfer to investment properties	(19,656,742)	(19,656,742)
Addition (disposal)	(3,333,915)	3,333,915
Balance at end of year	570,557,369	573,891,284
Accumulated impairment loss		
At beginning of year	47,641,000	47,641,000
Reversal of impairment loss	-	-
At end of year	47,641,000	47,641,000
Net carrying amounts, December 31	₱522,916,3699	₱526,250,284

As at December 31, 2022 and 2021, outstanding receivable from PHES amounted to ₱10,897,335 which pertains to the Group's share in the sale of lot net of expenses.

No liabilities, revenues and expenses recognized in relation to the joint venture in 2022 and 2021.

Property, Plant and Equipment

Details of the Group's property, plant and equipment as at December 31, 2022 are as follows:

3.) Risks

The Group is exposed to a variety of financial risk which results from both its operating and financing activities. The Group’s risk management is coordinated with the Group, in close cooperation with the Board of Directors, and focuses on actively securing the short-term cash flows by minimizing the exposure of financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options.

The most significant financial risks to which the Group is exposed to are described below:

a) Credit risk

Credit risk refers to the risk that counterparty will default its contractual obligation resulting in financial loss to the Group. The Group’s credit risk is primarily attributable to its financial assets which composed of cash, trade and other receivables, instalment contract receivables and advances to related parties.

The Group’s exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments, as summarized below:

Credit risk exposure

The Group’s maximum exposure to credit risk without taking into account any collateral held or other credit enhancements arises from the carrying amount financial assets recognized in the consolidated statements of financial position.

In order to minimize credit risk, the Group has developed and maintained internal credit risk gradings to categorize exposures according to their degree of risk of default. The Group uses its own trading records to rate its major customers and other debtors.

The Group's current credit risk grading framework is as follows:

Category	Description	Basis for recognizing ECLs	Base	Minimum Allowance for credit losses	Stage
Performing	The counterparty has a low risk of default and does not have any past due amounts	12-month ECL	0%	0%	1
Doubtful	Amount is 1-30 days past due or there has been a significant increase in credit risk since initial recognition	Lifetime ECL - not credit impaired	25%	1%	2
	Amount is 31-90 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - not credit impaired	25%	5%	2
	Amount is 91-180 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - not credit impaired	25%	10%	2
	Amount is 181-360 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - not credit impaired	25%	25%	2
In default	Amount is over 1 year to 2 years past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - not credit impaired	50%	25%	3
	Amount is over 2 years to 3 years past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - not credit impaired	100%	25%	3
	Amount is over 3 years to 5 years past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - not credit impaired	100%	50%	3
Write off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is write off	100%	100%	3

The maximum credit risk exposure of the financial assets is the carrying amount of the financial assets shown on the face of statement of financial position, as summarized below:

		December 31, 2022			
		Basis of recognizing ECL	Gross Carrying Amount	Loss allowance	Net carrying amount
Cash in bank	(a)		₱8,714,752	₱-	₱8,714,752
Receivables	(b)	Lifetime ECL	111,220,085	(81,472,858)	29,747,227
Advances to related parties	(b)	Lifetime ECL	154,685,255	(129,010,691)	25,674,564
Total			₱274,620,092	(₱210,483,549)	₱64,136,543

		December 31, 2021			
		Basis of recognizing ECL	Gross Carrying Amount	Loss allowance	Net carrying amount
Cash in bank	(a)		₱9,569,982	₱-	₱9,569,982
Receivables	(b)	Lifetime ECL	123,808,263	(86,474,558)	37,333,705
Advances to related parties	(b)	Lifetime ECL	162,685,516	(132,103,302)	30,582,214
Total			₱296,063,761	(₱218,577,860)	₱77,485,901

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash as described below.

Cash in bank

The credit risk for cash in bank is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Cash in banks are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of ₱500,000 for every depositor per banking institution.

Trade and other receivables

Credit risk arising from rental income from leasing of buildings is primarily managed through a tenant selection process. Prospective tenants are evaluated on the basis of payment track record and other credit information. In accordance with the provisions of the lease contracts, the lessees are required to deposit with the Group security deposits and advance rentals which helps reduce the Group's credit risk exposure in case of defaults by the tenants. For existing tenants, the Group has put in place a monitoring and follow-up system. Receivables are aged and analyzed on a continuous basis to minimize credit risk associated with these receivables. The Group has applied simplified approach to measure the loss allowance using management's adopted policy on ECL on trade and other receivables. The Group has applied simplified approach to measure the loss allowance using management's adopted policy on ECL on trade and other receivables.

Advances to related parties

For advances to related parties, the Group has applied the simplified approach to measure the loss allowance using management's adopted policy on ECL. The Group determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

To measure the ECL, trade and other receivables, and advances to related parties have been grouped based on shared credit risk characteristics and the days past due. The Group has therefore concluded that the expected loss rates for trade and other receivables and advances to related parties are a reasonable approximation of the loss rates for the financial asset.

On that basis, the loss allowance as at December 31, 2022 and 2021 was determined based on the Group's credit risk grading, as follows for trade and other receivables and advances to related parties.

December 31, 2022	ECL Rate	Gross Amount		Total	Lifetime ECL

The management continues to review trade and other receivables and advances to related parties for any legally enforceable right to offset with liabilities with the expressed intention of the borrower to settle on a net basis.

Impaired accounts represent account of third parties and related parties that have not paid for a long time and for which the Group believes that a portion of the receivables may not be collected. The allowance is estimated based on the Group's estimate for accounts which it believes may no longer be collected.

(b) Equity Price Risk

Equity Price Risk is the risk that the fair value of equity instrument decreases as a result of changes in the value of individual stocks. The Group's exposure to equity price risk arises from investments held by the Group and classified in the Group's statements of financial position as financial asset at FVOCI.

Equity instruments designated at FVOCI in unquoted price are held for strategic rather than trading purposes. The Group does not actively trade these investments.

If the price of the financial assets at FVOCI had been 10% higher/lower other comprehensive income for the years ended December 31, 2022 and 2021 would decrease/increase by ₱1,250,000.

(c) Liquidity Risk

The Group's policy is to maintain a balance between continuity of funding through cash advances from related parties.

The following table details the Group's remaining contractual maturity for its financial liabilities. The table below has been drawn up based on undiscounted cash flow of financial liabilities based on earliest date on which the Group can be required to pay.

Substantial portion of the Group's financial liabilities consist of advances from related parties. There is no specific term of advances agreed with the related parties. The Group does not expect to pay its liabilities with related parties nor expect related parties to collect within twelve (12) months after the reporting date. Furthermore, advances from affiliates and stockholders were settled through assignment and offsetting among the Group.

(e) Capital Risk Objective and Management

The Group's objectives when managing capital are to safeguard the Parent Company's ability to continue as a going concern, so that it can continue to provide returns for stockholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group defines capital as share capital and deficit for the purpose of capital management.

Consistently with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total liabilities as shown in the consolidated statements of financial position less cash. Total capital is calculated as Equity as shown in the consolidated statements of financial position plus Net debt.

Gearing ratio compares some form of owner's equity to borrowed funds. It is a measure of financial leverage demonstrating the degree to which the Parent Company's activities are funded by owner's funds versus creditors' funds.

In 2022, the Group's strategy, which was unchanged from 2021, was to keep the gearing ratio below 50% as proportion to net debt to capital. The gearing ratios as at December 31 were as follows:

	2022	2021
Debt	₱437,872,855	₱454,638,725
Cash	(8,734,752)	(9,589,982)
Net debt	429,138,103	445,048,743
Equity	1,200,149,088	1,202,859,132
Total Capital	1,629,287,191	1,647,907,875
Gearing ratio	0.26%	0.27%

The Parent Company is subject to externally imposed capital requirement amounting to ₱6,250,000 which is the minimum paid-up capital requirement of SEC for mining companies. As at December 31, 2022 and 2021, the Parent Company is in compliance with this externally imposed capital requirement.

On the other hand, the Parent Company's subsidiaries are not subject to any externally imposed capital requirements.

4.) Legal Proceedings

A. *G.R. No. 249337 entitled, "WATERFRONT PHILIPPINES, INC. (WPI), WELLEX INDUSTRIES, INC. (WII), AND THE WELLEX GROUP, INC. (TWGI) vs. SOCIAL SECURITY SYSTEM (SSS)", pending before the Supreme Court*

On September 7, 1999, the BOD approved the execution of a third-party real estate mortgage on the Group's properties located in Quezon City with an actual area of 6,678 square meters to secure the loan of Waterfront Philippines, Incorporated (WPI), an affiliate, with the Social Security System (SSS) amounting to ₱375 million. In 2003, SSS foreclosed the asset mortgaged in the amount of ₱198,639,000.

The Group filed a civil case against SSS on the foreclosed property claiming for sum of money and damages in the amount of ₱500 million. On January 12, 2015, the contract of loan and real estate mortgage were declared null and void by the RTC. Thus, WPI was directed to return the amount of ₱375 million to SSS and for SSS to return the properties and shares used as collateral. SSS filed an appeal to the Court of Appeals.

On August 30, 2019, the Court of Appeals issued its Decision reversing the RTC's Decision dated January 13, 2015 and Order dated May 11, 2015. The CA declared that the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock" and the extra judicial foreclosure sale of the Green Meadows properties covered by Transfer Certificate of Title Nos. N-153395 and N-153396 are valid. The CA ordered WPI to satisfy the deficiency under the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock" in the sum of ₱841,567,136.85 due to SSS as of April 30, 2010. This obligation shall earn the stipulated interest and penalty charges, in accordance with the terms and conditions of the

October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock", computed from April 30, 2010 until finality of the Decision.

On October 4, 2019, WPI filed a Petition for Review on Certiorari before the Supreme Court (SC). The SC in its decision dated July 6, 2021 granted the petition and the CA's Decision dated August 30, 2019 was reversed and set aside. SSS filed its Motion for Reconsideration dated January 28, 2022 praying the dismissal of WPI's Petition for Certiorari. On February 2, 2022, the Office of the Solicitor General filed a Manifestation stating that it filed/served by electronic means its Motion for Reconsideration due to the physical closure of its offices as a result of the Covid-19 pandemic.

On 04 May 2022, WPI, et al., filed a Comment to Respondent's Motion for Reconsideration with Motion to Admit. On September 21, 2022, the SC issued a resolution denying SSS's Motion for Reconsideration with finality. On December 20, 2022, the SC issued an Entry of Judgment.

As of now, the parties are preparing their compliance with the SC's decision dated July 6, 2021 with respect to the computation of total loan and interest to be paid by WPI to SSS and processing the transfer of foreclosed property back to WIN with corresponding rentals.

B. Wellex Industries, Inc. (formerly known as Republic Resources and Development Corporation) v. Macquarie Green Properties, Inc., et al., Civil Case No. 3185-19 SM (For: Annulment of Public Auction Sale, Reconveyance, Cancellation and Reinstatement of Title and Damages), Regional Trial Court (RTC), Branch 75, San Mateo, Rizal

On June 24, 2019, the Group filed a civil case for annulment of public auction reconveyance, cancellation and reinstatement of title and damages with the Regional Trial Court of San Mateo Rizal (RTC). The complaint filed was dismissed by the RTC through the Resolution dated October 30, 2019 for failure of the Group to pay the full jurisdictional amount. The Group filed Motion for Reconsideration arguing that it was ready and willing to pay the full jurisdictional amount had the Office of the Clerk of Court (OCC) made the proper assessment, which was its duty and in which assessment plaintiff merely relied on. The Group also argues that the rule on the payment of docket fees should apply by analogy since the deposit required is also a jurisdictional amount and, accordingly, should be given time to pay the deposit upon reassessment by the OCC. On February 10, 2020, the Motion for Reconsideration was dismissed for lack of merit.

On March 13, 2020, the case was escalated to the Supreme Court by filing a Petition for Review on Certiorari with the grounds that the RTC resolved the case in a way not in accord with the law and with the applicable decisions of the Supreme Court. Instead of dismissing the instant case, the RTC should have directed the Office of the Clerk of Court to assess the deposit, or the petitioner to make the correct deposit, required under Section 267 of R.A. 7160, consistent with the rule on the payment of jurisdictional amounts. On September 2, 2020, the Supreme Court denies the Petition for Review on Certiorari.

On October 27, 2020, the Group asked Supreme Court to consider the Resolution promulgated on September 2, 2020 and to issue another reversing and setting aside the resolution dated October 30, 2019, and the resolution dated February 10, 2020 issued by the RTC, and directing the office of the clerk of Court of the RTC of San Mateo, Rizal to assess the filing fees and the amount of deposit and interest that should be paid by petitioner, and directing the RTC, Branch 75 of San Mateo, Rizal to reinstate the instant case.

On March 11, 2021, the Group received the notice from the Supreme Court dated January 25, 2021, denying the Motion for Reconsideration but before the Group can refile the case with the RTC, the Group received an offer from certain individuals to assume the above subject properties on an as-is-where-is basis on an exchange for their properties near the same location. The estimated values of the swapped properties are approximately the same. In order to avoid additional costs of a lengthy court dispute, the BOD has decided to accept the offer of asset-swap in a special meeting held on December 17, 2021.

On February 23, 2022, the Group and these individuals entered into a Memorandum of Agreement whereby the parties have voluntarily agreed, by and between themselves, to exchange their respective properties, on as-is-where-is basis. Documentation is currently in process.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

A copy of the Audited Financial Statements as of December 31, 2022 and Unaudited Second Quarter of 2023 Financial Statements are herein attached.

PLAN OF OPERATION

Years ago, the company ceased its downstream plastic manufacturing and commercial operations due to high production costs and stiff competition from Chinese imports. The focus of the company's operations was shifted to leasing out its warehouse facilities. The company has, since then, reorganized its operations and its warehouses are currently almost fully occupied by tenants despite the difficulties brought about by the pandemic.

The Company will re-enter the real estate market, repositioning its 21-hectare industrial estate in Valenzuela City into a mixed-use project. The Company will also seek the development of industrial estates/subdivisions in new locations, for which it has already gained sufficient expertise with its existing operations.

Because the government has declared that mining entities will be allowed to renew operations in order to jump-start the economy, the Parent Company has started to re-study the acquisition of mining companies with existing Mineral Product Service Agreement (MPSA) with the Mines and Geosciences Bureau (MBG). This is in the hope that the acquired operations will ride on the business uptick in the industry. Both metal and non-metal operations, including target companies involved in construction aggregates will be evaluated in greater detail. The company will of course, fully comply with stringent requirements of the Department of Environment and Natural Resources (DENR).

Projected Plan for The Next Twelve (12) Months:

The Company did not pursue the Agreement with Avida Land Corporation (ALC) for the development of our 21-hectare property in Valenzuela City. The project will now be undertaken in joint venture with Philippine Estate Corporation (PHES), an affiliate, and will involve the conversion of the industrial estate into a mixed-use hub with complimentary commercial, office and residential zones. The Company are certain that this shift in character will greatly increase the value of the company's property and will encourage the development and growth of a new Central Business District for Valenzuela City.

Business and Operations

Based on current operation, the Company's cash requirements can be generated internally from rental income from the remaining lease contracts. The management believes that resources are sufficient for projected leasing plans for the next twelve months. However, should there be an opportunity for an interesting business acquisition as related above, there might be a need to raise funds via a stock rights offering with the local course. In any case, the Group has substantial amount of trade receivables and receivables from related parties which are realizable upon demand.

Project Research and Development

The group will also explore new business opportunities in the development of industrial estates, and to this end, ocular inspections for suitable raw land for development into industrial estates are being carried out in Cavite, Laguna, Batangas and Bulacan. Discussions have been carried out with local government city planning officials in order to determine which sites are candidates for long-term success, and we are in constant communication with urban planners and construction engineers in order to fully understand the financial feasibility models for the development of these industrial estates.

Manpower and Capital Asset Requirements

Project manpower will be outsourced when needed. Technical and managerial plantilla positions will be filled when future operations commence in either the mining sector or industrial estate development. A capital-infusion and build-up program will address the group's financial standing, the size and timing of which will be directly related to the planned entry into new business endeavors.

The waning influence of the COVID-19 virus had led to a resurgence of global travel and renewed business interest in the Philippines. Despite the economic turbulence brought about by the war in Ukraine, management is still optimistic that the economy growth is coming soon especially with influx of inquiries by foreign investor groups in the mining and energy sectors.

For the year 2020, all working capital requirements came from the rental income generated by the subsidiaries and advances from affiliates.

CHANGES IN RESULTS OF OPERATION

Revenues and Earnings per share

Total revenues for the year 2020 and 2019 are ₱29.9 million and ₱29.5 million, respectively. The Group has ceased manufacturing operations since 2002 and currently disposed to lease out its warehouse facilities. Due to these circumstances, revenue for the year increased by ₱0.4 million or 1.36%. As of December 31, 2020, the Group has twelve (11) tenants occupying 21 areas. Rental rates were increased to cover overhead and fixed expenses.

Earnings (loss) per share comparisons from year 2020 and 2019 as follows: ₱0.0109 and (₱0.0128) respectively.

Cost and Expenses

Total expenses as reflected on the table consist of direct cost, operating expenses and finance cost net of other income for each year.

Direct cost consisted primarily of depreciation, security services, repairs and maintenance, property taxes and insurance. Direct cost for 2020 increased by ₱2.7 million or 19.32% as compared to last year due to the following movement; higher property taxes paid for the current year by ₱2.1 million, increased in depreciation expense by ₱0.5M and minimal movements in security expense, repairs and insurance.

Total operating expenses for 2020 increased in minimal amount by ₱0.2 million or 1.824% mainly due to the following: increased in taxes by ₱2.2M, decreased of salaries by ₱0.1M, increased in professional fee by ₱0.2M, decreased in depreciation by ₱4.4 million, decreased in light and water by ₱0.4M, decreased in commission by ₱0.5M, increased in listing and maintenance fee by ₱0.2M, increased of publication fee by ₱0.2M, increased in miscellaneous by ₱3.9M and minimal movements in security services, SSS, Medicare and EC contribution, transportation and office supplies expenses.

The Group also reported an other income (loss) amounting to ₱46.3M and (₱34.9M) in 2020 and 2019, respectively. Movements in other income/(loss) were mainly due to gain on sale of investment properties amounting to ₱46.7M, decreased in provision ECL for trade and other receivables by ₱18.8M, increased in reversal ECL for advances to related parties by ₱16.4M, increased in write-off other assets by ₱85,000 and decreased of miscellaneous income by ₱0.3M.

CHANGES IN FINANCIAL CONDITION

Current Assets

Receivables

This account consists of trade receivable from rental and related parties, advances to third parties and reimbursable utilities expenses from tenants of PCIC. Rental receivables are collectible monthly based on terms of the contract. Total trade and other receivables amounted to ₱41.7M and ₱43.7M in 2020 and 2019, respectively. In 2020, trade and other receivables decreased by ₱2.0M or 4.67% due to decreased in rental and utilities receivable by ₱2.5M. Advances to third parties represent receivable from a previously disposed subsidiary with a corresponding allowance for doubtful accounts. Advances to related parties decreased by ₱0.8M due to collections made.

Prepaid expenses and other current assets

Recorded balances of this account is ₱14.7M and ₱14.1M as of December 2020 and 2019, respectively. This account increased by ₱0.5 million or 3.65% due to recognition of creditable withholding taxes and input VAT incurred for the year. The carrying amounts of the creditable withholding tax and input taxes are reduced to the extent that they are no longer probable that sufficient income tax due and revenue subject to VAT, respectively, will be available to allow all or part of the creditable withholding and input taxes to be utilized.

As of December 31, 2020, no provision for impairment has been recorded since management believes that the accounts are fully realizable.

Noncurrent Assets

Advances to Affiliates

This account consists of advances made by the company to finance the working capital requirements of its subsidiaries.

The recorded balance as of December 31, 2020 and 2019 amounted to ₱29.6 million and ₱30.4 million, respectively. Decreased by ₱0.8 million or 2.63% was due to offsetting arrangements to settle intercompany receivables and payables.

Investment Properties

This account consists of land and buildings and improvements held primarily to earn rentals and for capital appreciation and future development. The land and buildings and improvements were situated in Valenzuela, Metro Manila and Rodriguez (formerly Montalban) Rizal is carried at revalued amounts as determined by an independent firm of appraisers. A portion of the land with an aggregate amount of ₱6,484,935 as at December 31, 2020 and 2019 was under litigation. Decreased in the Investment Properties by ₱12.6 million or 1.22% was mainly due to disposal of properties (Note 8).

No valuation of independent appraisers was conducted for the investment properties. The fair values were determined based on the market comparable approach that reflects recent transaction prices for similar properties. In estimating the fair values of the properties, the highest and best use of the properties is their current use. The fair value of investment properties amounted to ₱2,936,117,000 and ₱1,433,021,485 as at December 31, 2020 and 2019.

Interest in a Joint Operation

In July 1997, the Group, together with International Polymer Corp. (IPC), Pacific Rehouse Corp.(PRC) and Ropeman International Corp. (RIC), entered into a Joint Venture Agreement (the "Agreement") as Owners with Philippine Estates Corporation (PHES), as Developer. Under the agreement, the owners contributed land with an approximate area of 29.5629 hectares located in Canumay, Valenzuela City, whereby PHES will develop into industrial estate in accordance with the plans mutually agreed by venturers.

The developer is entitled to forty percent (40%) of the net proceeds after deducting all relevant taxes, marketing and administrative expenses, and the remaining sixty percent (60%) of shall constitute the owners share, divided proportionately to the areas of property contributed.

The Group's land is carried at cost, less accumulated impairment loss. The fair value of land is determined using the combination of income capitalization approach, coast approach and market approach.

As at December 31, 2020 and 2019, outstanding receivable from PHES amounted to ₱10,897,335, respectively, which pertain to the Group's share in the sale of lot, net of expenses.

No liabilities, revenue and expenses recognized in relation to the joint venture in 2020 and 2019.

Property and Equipment

This consists of buildings and improvements, machinery and equipment, transportation equipment and tools and furniture and fixtures of PCIC subsidiaries used for the manufacture of plastic products and food processing. As of December 2020 and 2019, total property and equipment is ₱2.5M and ₱1.9M or an increased by ₱0.6 million or 34.13% was mainly due to additional trucks and furniture and fixtures purchased during 2020.

Depreciation and amortization are computed using the straight –line method over the estimated lives of the assets. The decrease is due to the depreciation provision during the year. At present, the Group has no contractual commitment to acquire property and equipment as at December 31, 2020 and 2019.

Total depreciation charged to operating expenses amounted to ₱1.5 million, ₱5.9 million and ₱7.5 million in 2020, 2019 and 2018, respectively.

Other Assets

This consists mainly of Refundable Deposits. An amount of ₱0.18 million was recorded in year 2019 and 2018.

Current Liabilities

Accounts Payable

This account consists of trade payables to various suppliers of PCIC subsidiaries, deferred rental and government liabilities.

Borrowings

On December 5, 2020, the Group secured a chattel mortgage agreement with a local bank to finance the purchase of delivery trucks. In 2020, the group recorded borrowings-current amounting to ₱0.3M and noncurrent ₱0.8M.

(i) Summary of Material Trends, Events and Uncertainties

Plastic City Industrial Corporation and its Subsidiaries

PCIC and its subsidiaries have ceased operations but have leased out their warehouse facilities. The intention of the Group is to continue its operations by focusing on “injection molding” due to its very encouraging prospect and which was shown to have a high viability rating that will contribute highly towards the Group's maximum operations and financial position. Management is continuously in search of reliable joint venture partners who have means to continue its operations.

Below is the list of legal matters of the Group, which are fully disclosed in Item3, Legal Proceedings:

1. G.R. No. 249337 entitled, "Waterfront Philippines, Inc. (WPI), Wellex Industries, Inc. (WIN), and The Wellex Group, Inc. (TWGI) vs. Social Security System (SSS)", pending before the Supreme Court.
2. Wellex Industries, Inc. (formerly known as Republic Resources and Development Corporation) v. Macquarie Green Properties, Inc., et al., Civil Case No. 3185-19 SM (For: Annulment of Public Auction Sale, Reconveyance, Cancellation and Reinstatement of Title and Damages), Regional Trial Court (RTC), Branch 75, San Mateo, Rizal

(ii) Events that will Trigger Direct of Contingent Financial Obligation

Since the Plastic City Industrial Corporation ceased in manufacturing and commercial operation there are no events that will trigger direct of contingent financial obligation that is material to Wellex Industries Inc. including any default or acceleration of an obligation.

(iii) Material Off-Balance Sheet Transactions, Arrangements, Obligations

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of Wellex Industries Inc. with unconsolidated entities or other persons created during the reporting period. The present activity of the company is focused on reorganizing its operations in preparation for its new businesses.

(iv) Commitment For Capital Expenditures

Since the Plastic City Industrial Corporation ceased manufacturing and commercial operations, there are no commitments on major capital expenditures.

(v) Any Known Trends, Events of Uncertainties (Material Impact on Net Sales / Net Income)

The Group has ceased its manufacturing and commercial operations since 2002 and currently disposed to lease out its warehouse facilities. Rental Income recorded for the year 2022 compared to 2021 decreased by 15.97% since as of December 31, 2022, there are only eighteen (18) lessees occupying 21 areas such as the warehouses, shipyards, open spaces and extensions inside the Plastic City premise and with lower rental rates offered to encourage more tenants. During 2021, though with lower number of areas being leased out (16), the company managed to increase the rental rates to cover fixed and operating costs.

Current ratio (current assets over current liabilities) as of December 31, 2022 is 597.95% with current assets of ₱55.7M over ₱9.3M current liabilities. The Group's policy to address liquidity risk is to maintain

a balance between continuity of funding through cash advances from the Parent Company and affiliates. Payment of current liabilities such as government taxes, employees' premium contributions, etc. was funded through these cash advances. The Group does not expect to pay its liabilities to related parties within twelve months after the reporting date. Furthermore, advances from affiliates and stockholders were settled through assignment and offsetting among the Group.

On December 16, 2020, TWGI issued promissory note amounting to ₱46,578,262 for five years maturing December 15, 2025 and bear an interest of 2% per annum. Interest income earned amounted to ₱931,565 and ₱931,565 in 2022 and 2021, respectively (see Note 16).

(vi) Significant Element of Income or Loss That Did Not Arise From Continuing Operation

The Group adopted PFRS 16 using the modified retrospective approach, with recognition of transitional adjustments on deficit as at January 1, 2019, without restatement of comparative figures.

The Company has adopted the PFRS 9 Financial Instruments from January 1, 2018 and resulted in changes in accounting policies and adjusted amounts recognized in the financial statements. The comparative figures have been restated to comply with the transitional provisions in PFRS 9.

PFRS 9, Financial Instruments (2014). PFRS 9, Financial Instruments replaces PAS 39 Financial Instruments" Recognition and Measurement, bringing together all three aspects of the accounting for financial instruments: classification and measurement, impairment, and hedge accounting. The standard requires all recognized financial assets that are within the scope of PAS 39 to be subsequently measured at amortized cost or at fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely for payments of principal and interest on the outstanding balance are generally measured at amortized cost at the end of subsequent reporting periods. All other debts investments and equity investments are measured at their fair values at the end of subsequent reporting periods. For financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income would create or increase an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss.

The Company has adopted the PFRS 9 *Financial Instruments* from January 1, 2018 and resulted in changes in accounting policies and adjusted amounts recognized in the financial statements. The comparative figures have been restated to comply with the transitional provisions in PFRS 9.

(vii) Material Changes on Line Items in Financial Statements

Material changes on line items in financial statements are presented under the captions 'Changes in Financial Condition' and 'Changes in Results of Operation'.

(viii) Effect of Seasonal Changes in the Financial Condition or Results of Operations

The financial condition or results of operations is not affected by any seasonal change.

Key Performance Indicators

The Parent Company is in the process of discussing with potential investors for planned forays into new business lines. Its subsidiary, PCIC, ceased its manufacturing operation since 2002 due to the Asian crises and stiff business competition and had leased out its building facilities for revenue. The Group determines their performance on the following five (5) key performance indicators:

1. Revenue Growth – the company gauge its performances by determining Rental Income and the number of tenants for the year. For the second quarter of 2023, the company has an average of ₱227,629 rental income per tenant or a decrease by ₱71,083 rental income per tenant or 23.80% as compared to second quarter of 2022.
2. Receivables - the company assesses collection of receivables and management of credit by determining the past due ratio done thru the aging of receivables. For the second quarter of 2023, ratio of past due receivables to total outstanding was 99%. The current quarter exceeds the management gauge on past due receivables due to significant number of receivables from third parties which are no longer operating. These third parties are previous subsidiary of the Group. Appropriate provision for allowance for doubtful accounts was recorded.
3. Gross Profit Margin - this is derived by dividing the gross profit over the revenues amount. The second quarter of 2023 has a gross profit margin of 85.97%, higher than the second quarter of 2022. Increase pertains to higher rental income for the current quarter.
4. Working Capital – to meet the obligations of the company, it is measured by determining current assets over current obligations. Working capital ratio for second quarter of 2023 was 421.22% as compared to 379.97% on the second quarter of 2022. Increase is attributable to decrease in current assets by ₱8 million or 13.58% and decrease in current liabilities by ₱3.4 million or 22%.

5. Advances by the Affiliates - For the second quarter of 2023, the company has total advances from affiliates amounting to ₱420.9 million or a decrease of ₱13.3 million from last quarter's ₱434.2 million balance.

Indicator	Jun 2023	Jun 2022
Revenue	23.80%	23.64%
Receivables (Past Due Ratio)	99.00%	97.13%
Gross Profit Rate	85.97%	39.27%
Working Capital	421.22%	379.97%
Advances Ratio	3.06%	1.16%

Quarter ended June 30, 2023 as compared with quarter ended June 30, 2022

As of the quarter ending June 30, 2023, the company continues to lease out its warehouse facilities. Total revenue recorded for the 2nd quarter of 2023 amounted to ₱5.5 million as compared to the same quarter of 2022 amounting to ₱5.1 million or a decrease of ₱0.4 million or 7.58%. Number of areas being leased out for the 2nd quarter of 2023 is greater than 2nd quarter of 2022.

Income/(Loss) per share comparison for the quarter ended June 30, 2023 and 2022 are (₱0.0006) and (₱0.0008), respectively.

As of June 30, 2023, there are twenty-two (22) companies leasing inside the PCIC compound occupying twenty-four (24) areas. List of companies are as follows:

Direct cost and operating expenses for the 2nd quarter of 2023 totaled ₱7.5 million as compared to ₱7.6 million for the 2nd quarter of 2022 or a decrease of ₱0.1 million or 2.13%. The amount was recorded and mainly attributable to the following:

1. Direct cost for the second quarter of 2023 and 2022 consists of security services, depreciation expense, property taxes and repairs and maintenance. Total direct cost recorded for the second quarter of 2023 amounted to ₱0.8 million and ₱2.8 million for the second quarter of 2022. Decrease is due to no reported expenses rather than the depreciation expense in the 2nd quarter of 2023.
2. Operating expenses for the 2nd quarter of 2023 increase by ₱1.8 million or 37.69% as compared to the 2nd quarter of 2022, which resulted by the following movements: decrease in professional fees by ₱121,250 decrease in salaries and wages by ₱10,581, increase in taxes and licenses by ₱979,085 from payment of property taxes, decrease in rent, light and water by ₱68,663, decrease in commission by ₱33,481, increase in SSS, Medicare and EC contributions by ₱25,467 and increase in miscellaneous by ₱1,067,777 which includes classification of expenses like security services which is recognized as part of operating expense rather than direct cost as service is for the whole plastic city compound.

Other Income (Expenses) consist of interest income, other income and interest expense. Total Other Income (Expenses) for the 2nd quarter of 2023 and 2022 is ₱76,781 and ₱67,925, respectively. Increase in income in the 2nd quarter of 2023 was due less interest expense reported.

The Group does not recognize a finance cost for 2nd quarter of 2023 and 2022.

CHANGES IN FINANCIAL CONDITION

Cash

The Group's cash decreased by ₱0.7 million or 12% for the 2nd quarter of 2023 as compared to 2nd quarter 2022 due to the following activities: (a) net cash provided in operating activities is ₱1.6 million, (b) net cash generated in investing activities is ₱1.8 million and (c) net cash used in financing activities ₱6.9 million.

Trade and Other Receivables

Trade and other receivables (net) decrease by ₱ million or 21% in the 2nd quarter of 2023 as compared to 2nd quarter of 2022. This is mostly attributable to the decrease in advances to third parties by ₱6.2 million, decrease in rental receivables by ₱1.7 million, decrease in receivable from related parties by ₱10.9 million and decrease in allowance for estimated credit losses by ₱5 million. Certain trade receivables were found to be impaired using the provisional matrix as determined by the management, hence, adequate amounts of allowance for impairment have been recognized (Note 22).

Advances to related parties

Advances to related parties decrease by ₱3.3 million or 12% in the 2nd quarter of 2023 as compared to the 2nd quarter of 2022 due to collection of advances in the current quarter.

Property and Equipment

There's a decrease in property and equipment amounting to ₱0.7 million or 52% on the 2nd quarter of 2023 as compared to 2nd quarter of 2022 due to depreciation.

Advances from lessees

Advances from lessees decrease by ₱2.8 million or 44% in the 2nd quarter of 2023 as compared to the 2nd quarter of 2022 due to some lease contracts already ended in the current quarter.

Deferred Asset and Liabilities

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The recognition of deferred tax assets is based on the assessment that the Group will generate sufficient taxable profit to allow all or part of the deferred tax assets will be utilized. The Group's deferred asset account in the 2nd quarter of 2023 increase by ₱37,466 or 358.46% as compared to the 2nd quarter of 2022 for newly recognized deferred tax not yet covered by allowance for impairment.

Key Performance Indicators

The Parent Company is still in the process of discussing with potential investors for planned forays into new business lines. Its subsidiary, PCIC, has ceased its manufacturing and commercial operation since 2002 due to Asian crises and stiff business competition and had leased out its building facilities for revenue. The Group determines their performance on the following five (5) key performance indicators:

1. Revenue Growth – the company gauge its performances by determining Rental Income and the number of tenants for the year. For the second quarter of 2022, the company has an average of ₱362,722 rental income per tenant or a decrease by ₱158,051 rental income per tenant or 30.35% as compared to second quarter of 2021.
2. Receivables - the company assesses collection of receivables and management of credit by determining the past due ratio done thru the aging of receivables. For the second quarter of 2022, ratio of past due receivables to total outstanding was 98.51%. The current quarter exceeds the management gauge on past due receivables due to significant number of receivables from third parties which are no longer operating. These third parties are previous subsidiary of the Group. Collection of receivables was also affected by the negative impact to the finances of the tenants due to COVID 19 pandemic.

3. Gross Profit Margin - this is derived by dividing the gross profit over the revenues amount. The second quarter of 2022 has a gross profit margin of 45.50%, lower by 23.99% than the second quarter of 2021. Decrease pertains to higher direct cost for the current quarter.
4. Working Capital – to meet the obligations of the company, it is measured by determining current assets over current obligations. Working capital ratio for second quarter of 2022 was 379.97% as compared to 473.03% on the second quarter of 2021. Decrease is attributable to decrease in current assets by ₱6.8 million or 10.30% and Increase in current liabilities by ₱1.6 million or 11.68%.
5. Advances by the Affiliates - For the second quarter of 2022, the company has total advances from affiliates amounting to ₱434.2 million or a decrease of ₱5.1 million from last quarter's ₱439.3 million balance.

A copy of Second Quarter Report for the period ended June 30, 2023 or SEC Form 17-Q will be made available in the Company website.

(i) Summary of Material Trends, Events and Uncertainties

Wellex Industries, Inc.

The Parent Company has properties in Rodriguez (formerly Montalban), Rizal, with an aggregate cost of ₱52,335,000 as at June 30, 2023 and 2022. Land was received in exchange for its shares of stock in accordance with stock-for-assets swap arrangement entered into with various affiliates.

Land with aggregate carrying amount of ₱6,484,935 as at June 30, 2023 and 2022, was under litigation (Note 21).

As at June 30, 2023 and 2022, the Parent Company's properties are not subject to any liens or encumbrances.

The Company is considering re-entry into the real estate market, specifically the development of industrial estates/subdivisions, for which it has already gained sufficient expertise in its operations in Valenzuela City.

The Company had put on hold its plans to acquire a mining company with an existing MPSA with the Mines and Geosciences Bureau (MGB). This is due to the stringent requirements that the Department of Environment and Natural Resources (DENR) had placed on several dormant mining companies and the subsequent business slowdown in the industry as a result thereof.

(ii) Events that will Trigger Direct of Contingent Financial Obligation

There are no events that will trigger direct of contingent financial obligation that is material to Wellex Industries Inc. and its subsidiaries including any default or acceleration of an obligation.

(iii) Material Off-Balance Sheet Transactions, Arrangements, Obligations

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of Wellex Industries Inc. with unconsolidated entities or other persons created during the reporting period. The present activity of the company is focused on reorganizing its operations in preparation for its new businesses.

(iv) Commitment for Capital Expenditures

Since the Plastic City Industrial Corporation ceased manufacturing and commercial operations, there are no commitments on major capital expenditures.

(v) Any Known Trends, Events of Uncertainties (Material Impact on Net Sales / Net Income and Liquidity)

The Group has ceased manufacturing operations since 2002 and currently disposed to lease out its warehouse facilities. Rental Income recorded for the second quarter 2023 compared to 2022 decrease by ₱384,990 million or 7.58%.

As of June 30, 2023, there are twenty-two (22) lessees occupying twenty-four (24) areas such as the warehouses, shipyards, open spaces and extensions inside the Plastic City premise.

Current ratio (current assets over current liabilities) as of June 30, 2023 is 421.22% with current assets of ₱51 million over ₱12.1 million current liabilities. The Group's policy to address liquidity risk is to maintain a balance between continuity of funding through cash advances from the Parent Company and affiliates. Payment of current liabilities such as government taxes, employees' premium contributions, etc. was funded through these cash advances. The Group does not expect to pay its liabilities to related parties within twelve months after the reporting date. Furthermore, advances from affiliates and stockholders were settled through assignment and offsetting among the Group.

(vi) Significant Element of Income or Loss That Did Not Arise From Continuing Operation

The Group adopted PFRS 16 using the modified retrospective approach, with recognition of transitional adjustments on deficit as at January 1, 2019, without restatement of comparative figures.

The Company has adopted the PFRS 9 Financial Instruments from January 1, 2018 and resulted in changes in accounting policies and adjusted amounts recognized in the financial statements. The comparative figures have been restated to comply with the transitional provisions in PFRS 9.

(vii) Material Changes on Line Items in Financial Statements

Material changes on line items in financial statements are presented under the “Management’s Discussion and Analysis of Financial Condition and Results of Operations”.

Please refer to the attached Notes to Financial Statements.

(viii) Effect of Seasonal Changes in the Financial Condition or Results of Operations

The financial condition or results of operations is not affected by any seasonal change.

CORPORATE GOVERNANCE

The Corporation adheres to the principles and practices of good corporate governance, as embodied in its Corporate Governance Manual and related SEC Circulars. Continuous improvement and monitoring of governance and management policies have been undertaken to ensure that the Corporation observes good governance and management practices. This is to assure the shareholders that the Corporation conducts its business with the highest level of integrity, transparency and accountability.

The board of Directors has approved its Corporate Governance Compliance Evaluation System in order to check and assess the level of compliance of the Company with leading practices on good corporate governance as specified in its Corporate Governance Manual and pertinent SEC Circulars. The System likewise highlights areas for compliance improvement and action to be taken. One of the system's output is the Annual Corporate Governance Compliance Evaluation Form submitted by the Corporation every year to the SEC and PSE.

There were minor deviations from the Corporation's Manual during the period January to December 2004 due mainly to recent changes and business development plans. Since it was a minor deviation, the former president, Mr. Weslie T. Gatchalian, was issued a warning and written reprimand by the Exchange. The Company as represented by its Board of Directors was issued a written reprimand last June 11, 2010 also for not submitting its Revised Manual on Corporate Governance within the prescribed period of submission. The Company submitted its show-cause letter dated June 28, 2010 stating that it initially adopted not to revise its Manual and adopt instead the provisions of its Manual earlier filed with the Exchange. Subsequently, however, in order to comply with the directive of the Exchange, it was able to file its Revised Manual on Corporate Governance on the same date.

Wellex Industries, Inc. has consistently strived to raise its financial reporting standards by adopting and implementing prescribed Philippine Financial Reporting Standards.

The Company submitted its Integrated Annual Corporate Governance Report (IACGR) on May 29, 2023 covering the year 2022. The independent directors have submitted their Certificate of Qualification as required by the SEC vis-à-vis Section 38 of the Securities Regulation Code.

Report on the Audits of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of **Wellex Industries Incorporated and Subsidiaries** (the 'Group'), which comprise the consolidated statements of financial position as at December 31, 2022 and 2021, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2022, and notes to consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2022, in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with Code of Ethics for Professional Accountants in the Philippines (the 'Code of Ethics') together with the ethical requirements that are relevant to our audits of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which indicates that the Group has been incurring losses in current and prior years and has accumulated a deficit of ₱2,100,379,350 and ₱2,097,669,306 as at December 31, 2022 and 2021, respectively. As stated in Note 1, these events or conditions, along with other matters, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Should there be an opportunity for an interesting business acquisition, there might be a need to raise funds via a stock rights offering with the local bourse. The Group also has substantial amount of advances to related parties which are realizable upon demand. We have conducted sufficient audit procedures to verify the validity of the management plan to address the material uncertainty related to going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Adequacy of Allowance for Expected Credit Losses on Receivables and Advances to Related Parties

The Group's assumptions used in calculating the allowance for expected credit losses (ECL) is significant to our audit as it involves the exercise of significant management judgement. Key judgment areas include, historical credit loss experience based on past due status of debtors and current conditions and estimates of future economic conditions. Allowance for ECL on trade and other receivables amounted to ₱81,472,858 and ₱86,474,558 as at December 31, 2022 and 2021, respectively. Allowance for ECL on advances to related parties amounted to ₱129,010,691 and ₱132,103,302 as at December 31, 2022 and 2021, respectively.

The disclosures related to allowance for ECL on receivables and advances to related parties are included in Note 25.

Our Response

Our audit procedures to address the adequacy of allowance for ECL, includes the following:

- Obtained understanding of the approved methodologies used by the Group and assessed whether these are acceptable under the requisites of PFRS 9.
- For trade and other receivables, checked the methodology used in applying the simplified approach by evaluating the key inputs, assumptions, and formulas used.
- For advances to related parties, recalculated the allowance for ECL based on management assertions and policy of the Group in adopting general approach.
- Tested the definition of default against historical analysis of accounts and credit risk management policies and practices.
- Tested loss given default by inspecting historical recoveries including the timing, related costs, and write-offs.

Other information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2022, but does not include the consolidated financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2022 are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audits of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audits. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

WELLEX INDUSTRIES INCORPORATED AND SUBSIDIARIES

Notes to Consolidated Financial Statements

As at December 31, 2022 and 2021 and for each of the three years
in the period ended December 31, 2022

1. CORPORATE INFORMATION, STATUS OF OPERATIONS AND MANAGEMENT PLANS

Wellex Industries Incorporated (the ‘Parent Company’) was incorporated in the Philippines on October 19, 1956. The Parent Company engaged primarily in the business of mining and oil exploration and was known as Republic Resources and Development Corporation (REDECO). The Parent Company extended its corporate life for another fifty (50) years up to October 19, 2056 which was approved by the Securities and Exchange Commission (SEC) on July 20, 2007.

The Parent Company’s shares are listed and traded in the Philippine Stock Exchange (PSE).

The Parent Company wholly-owns Plastic City Industrial Corporation (PCIC). PCIC has ceased its commercial operations but PCIC subsidiaries have leased out their warehouse and building facilities.

The financial position and results of operations of the Parent Company and its Subsidiaries, (herein referred to as the ‘Group’) are consolidated in these financial statements.

The registered office address of the Parent Company is located at 35th Floor, One Corporate Center, Doña Julia Vargas Ave., cor. Meralco Ave., Ortigas Center, Pasig City, Philippines.

The consolidated financial statements as at and for the year ended December 31, 2022, including its comparatives for 2021 and 2020, were authorized and approved for issue by the Board of Directors (BOD) of the Parent Company on April 12, 2023.

Status of Operations and Management Plans

For the year ended December 31, 2022 and 2021, the Group has incurred losses resulting in a deficit of ₱2,100,379,350 and ₱2,097,669,306 as at December 31, 2022 and 2021, respectively. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as going concern and, therefore, the Group may be unable to realize its assets and discharge its liabilities in the normal course of business. Albeit these conditions, management believes that the Group will be able to meet all its outstanding obligations and continue to operate as a going concern.

To continue as a going concern, the officers and major stockholders of the Group have committed to provide full financial support to the Group to sustain its operations, meet the working capital requirements and settle obligations as they fall due.

In prior years, the Parent Company’s business of mining and oil exploration became secondary to real estate and energy development. On January 28, 2008, the BOD approved the amendment of the Parent Company’s primary purpose from a holding company to a company engaged in the business of mining and oil exploration.

The purpose of the amendment of the primary purpose was essentially to enable the Group to ride the crest of a resurgent mining industry including oil exploration of the country's offshore oil fields. The Group's strategy is to identify mining properties with proven mineral deposits particularly nickel, chromite, gold and copper covered by Mineral Production Sharing Agreements (MPSA) and to negotiate for either a buy-out or enter into a viable joint venture arrangement. For its oil and mineral exploration activities, the Group has identified and conducted initial discussions with potential investors.

However, the continuing global financial crises dampened the metal and oil prices that adversely affected the investment environment of mining and oil, and mineral exploration industry of the country. To finance its operating expenses, the Group obtains advances from related parties.

The Group has put on hold its plans to acquire a mining company with an existing MPSA with the Mines and Geosciences Bureau (MGB). This is due to the stringent requirements that the Department of Environment and Natural Resources (DENR) had placed on several dormant mining companies and the subsequent business slowdown in the industry as a result thereof.

Redevelopment of the Plastic City Complex in Valenzuela

On December 17, 2012, the Group and other related parties entered into a Memorandum of Agreement (MOA) with Avida Land Corp (ALC) for the development of 21.3 hectares of land located in Valenzuela City into a residential clusters of condominium, townhouses, house and lots. Out of the total 21.3 hectares, 12.8 hectares (representing 60% of the aggregate area) was owned by the Group and its affiliates and around 8.47 hectares were owned by related parties.

By virtue of a Rescission Agreement dated November 29, 2019, the Group elected not to pursue their Agreement with ALC for the development of the real estate. The project will now be undertaken in a joint venture with Philippine Estate Corporation (PHES), an affiliate, and will involve the conversion of the industrial estate into a mixed-use hub with complimentary commercial, office and residential zones. The Parent Company is certain that this shift in character will greatly increase the value of their property and will encourage the development and growth of a new Central Business District for Valenzuela City.

Business and Operations

Based on current operation, the Group's cash requirements can be generated internally from rental income from remaining lease contracts of its subsidiaries. The management believes that resources are sufficient for projected leasing plans for the next twelve (12) months. However, should there be an opportunity for an interesting business acquisition as related above, there might be a need to raise funds via a stock rights offering with the local bourse. In any case, the Group has substantial amount of advances to related parties which are realizable upon demand.

The Group will explore new business opportunities in the development of industrial estates, and to this end, ocular inspections for suitable raw land for development into industrial estates are being carried out in Cavite, Laguna, Batangas and Bulacan. Discussions have been carried out with local government city planning officials in order to determine which sites are candidates for long-term success, and the Group is in constant communication with urban planners and construction engineers in order to fully understand the financial feasibility models for the development of these industrial estates.

In addition, due to high demand in parking spaces and warehouses nowadays, management is eyeing to convert its unused land in Valenzuela into open parking spaces and renovate its vacant buildings into new warehouses for rent.

Project manpower will be outsourced when the operations commence and as the need arises. Technical and managerial plantilla positions will be filled when future operations commence in either the mining sector or industrial estate development. A capital-infusion and build-up program will address the Group's financial standing, the size and timing of which will be directly related to the planned entry into new business endeavors.

The worldwide quarantines brought about by the COVID-19 Omicron variant had caused some slowdown in the business momentum of the country. Despite the easing of international travel, there is still some lingering reluctance of foreign investors to enter into new Philippine projects, Management, however, is optimistic that economic normalcy is coming soon especially with the successful roll out of proven vaccines.

The renewed worldwide quarantines brought about by the COVID-19 Omicron variant has caused another slowdown in the business momentum of the country. Despite the limitations of regional travel and the reluctance of foreign investors to enter into new Philippine projects, Management is still optimistic that economic recovery is coming soon especially with the early successful rollout of proven vaccines.

Consequently, the Group's consolidated financial statements have been prepared assuming that the Parent Company will continue as a going concern. The Group's consolidated financial statements do not include any adjustments relating to the recoverability and classification of the recorded assets or the recognition and classification of liabilities that might result from the outcome of this uncertainty.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below and in the succeeding pages. The policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). The term PFRS in general includes all applicable PFRS, Philippine Accounting Standards (PAS) and Interpretations issued by the former Standing Interpretations Committee (SIC), the Philippine Interpretations Committee (PIC) and the International Financial Reporting Interpretations Committee (IFRIC), which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC.

Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Functional and Presentation Currency

The consolidated financial statements are presented in Philippine peso (₱), the Group's functional currency. All amounts are rounded to the nearest peso except when otherwise indicated.

Current and Non-Current Classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- expected to be realized or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- it is expected to be settled in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and tax liability are classified as non-current assets and non-current liabilities, respectively.

Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Parent Company and subsidiaries it controls. Control is achieved when the Parent Company has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to use its power to affect its returns. The Parent Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of these three elements of control.

When the Parent Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

Consolidation of subsidiaries begins when the Parent Company obtains control over the subsidiaries and ceases when the Parent Company loses control of the subsidiaries. Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statements of comprehensive income from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiaries.

The financial statements of the subsidiaries are prepared for the same reporting year, using accounting policies that are consistent with those of the Parent Company. Intra-group balances, transactions, income and expenses, and profits and losses resulting from intra-group transactions are eliminated in full in the consolidation.

Changes in the ownership interests in subsidiaries that do not result in the loss of control are accounted for as equity transactions.

If the Parent Company loses control over its subsidiaries, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resulting gain or loss is recognized in consolidated statements of comprehensive income.

Composition of the Group

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at December 31, 2022 and 2021. The details of its subsidiaries are as follows:

Subsidiaries	Principal Activity	Ownership	
		2022	2021
Direct Ownership			
PCIC	Manufacturing	100%	100%
Indirect Ownership (Subsidiaries of PCIC)			
ICC	Manufacturing	100%	100%
KCC	Manufacturing	100%	100%
PPC	Manufacturing	100%	100%
Rexlon Industrial Corporation (RIC)	Manufacturing	100%	100%

a) Direct ownership

PCIC

PCIC and its subsidiaries have ceased operations but have leased out their warehouse facilities. The intention of the Group is to continue its operation by focusing on “injection molding” due to its very encouraging prospect and which has shown to have a high viability rating that will contribute highly towards the Group’s maximum operation and financial position. Management is continuously in search for reliable joint venture partners who have the means to continue its operations.

b) Indirect ownership

ICC

ICC was incorporated in the Philippines and registered with the SEC on June 23, 1981, primarily to engage in the manufacture of plastic containers. The Company ceased its commercial operations on July 30, 2000, and has leased out its buildings as warehouses.

KCC

KCC was incorporated in the Philippines and registered with the SEC on February 14, 1983. The Company was established to manufacture all kinds of plastic containers. The Company ceased its commercial operations on April 30, 2002, and has leased out its buildings as warehouses.

PPC

PPC was incorporated in the Philippines and registered with the SEC on October 1, 1982. The Company was established primarily to manufacture plastic raw materials, rigid and non-rigid plastic products, plastic compounds, derivatives and other related chemical substances. The Company ceased its commercial operations on May 16, 2002, and has leased out its buildings as warehouses.

RIC

RIC was incorporated in the Philippines and registered with the SEC on October 9, 1984. The Company was engaged in the business of manufacturing and molding plastic products. The Company ceased its commercial operations on April 30, 2002.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial years except for the following new and amended PFRS that are mandatorily effective for annual periods beginning on or after January 1, 2022.

Property, Plant and Equipment before Intended Use (Amendments to PAS 16). The amendments to PAS 16, Property, Plant and Equipment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is ‘testing whether the asset is functioning properly’ when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment. Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity’s ordinary activities. The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

Reference to the Conceptual Framework (Amendments to PFRS 3). Minor amendments were made to PFRS 3, Business Combinations to update the references to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of PAS 37, Provisions, Contingent Liabilities and Contingent Assets and Philippine Interpretation IFRIC 21, Levies. The amendments also confirm that contingent assets should not be recognized at the acquisition date. The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

Onerous Contracts – Cost of Fulfilling a Contract (Amendments to PAS 37). The amendment to PAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract. The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

Annual Improvements to PFRS Standards 2018–2020

- *PFRS 9, Financial Instruments* – clarifies which fees should be included in the 10% test for derecognition of financial liabilities.

- *PFRS 16, Leases* – amendment of illustrative example 13 to remove the illustration of payments from the lessor relating to leasehold improvements, to remove any confusion about the treatment of lease incentives.

The annual improvements are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

New Accounting Standards, Interpretations and Amendments to Existing Standards Effective Subsequent to January 1, 2022

Standards issued but not yet effective up to the date of the Group’s consolidated financial statements are listed below. This listing of standards and interpretations issued are those that the Group reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Group intends to adopt these standards when they become effective.

Classification of Liabilities as Current or Noncurrent (Amendments to PAS 1). The narrow-scope amendments to PAS 1, Presentation of Financial Statements clarify that liabilities are classified as either current or noncurrent, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (eg the receipt of a waiver or a breach of covenant). The amendments also clarify what PAS 1 means when it refers to the ‘settlement’ of a liability. The amendments could affect the classification of liabilities, particularly for entities that previously considered management’s intentions to determine classification and for some liabilities that can be converted into equity. The amendments are effective for annual periods beginning on or after January 1, 2024, with earlier application permitted.

Disclosure of Accounting Policies (Amendments to PAS 1 and PFRS Practice Statement 2). The narrow-scope amendments PAS 1, Presentation of Financial Statements require entities to disclose material accounting policy information instead of significant accounting policies. The amendments also clarify the following: (1) accounting policy information may be material because of its nature, even if the related amounts are immaterial; (2) accounting policy is material if users of an entity’s financial statements would need it to understand other material information in the statements; and (3) if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information. Further, the amendments provides several paragraphs to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material. In addition, PFRS Practice Statement 2 has been amended by adding guidance and examples to explain and demonstrate the application of ‘four-step materiality process’ to accounting policy information in order to support the amendments to PAS 1. The amendments are applied prospectively. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted. Once the entity applies the amendments to PAS 1, it is also permitted to apply the amendments to PFRS Practice Statement 2.

Definition of Accounting Estimates (Amendments to PAS 8). The amendments to PAS 8, Accounting Policies, changes focus entirely on accounting estimates and clarify the following:

- The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”.
- Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

- A change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.
- A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognized as income or expense in the current period. The effect, if any, on future periods is recognized as income or expense in those future periods.

The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Deferred Tax Related to Assets and Liabilities arising from Single Transaction (Amendments to PAS 12). The amendments clarify that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary difference arise on initial recognition. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Lease Liability in a Sale and Leaseback (Amendments to PFRS 16). The amendment clarifies the how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in PFRS 15 to be accounted for as a sale. The amendments to PFRS 16 specifies that, in subsequently measuring the lease liability, the seller-lessee determines 'lease payments' and 'revised lease payments' in a way that does not result in the seller-lessee recognizing any amount of the gain or loss that relates to the right of use it retains. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Noncurrent Liabilities with Covenants (Amendments to PAS 1). The amendment clarifies how conditions with which an entity must comply within twelve months after the reporting period affect the classification of liability. Only covenants with which an entity is required to comply on or before the reporting date affect the classification of a liability as either current or non-current. In addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become repayable within twelve months. The amendments are effective for annual periods beginning on or after January 1, 2024.

Deferred Effectivity

PFRS 10, Consolidated Financial Statements and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments). The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture. On January 13, 2016, the FRSC deferred the original effective date of April 1, 2016 of the said amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Group has not early adopted the previously mentioned new, amended and improved accounting standards and interpretations. The Group continues to assess the impact of the above new, amended and improved accounting standards and interpretations that are effective subsequent to January 1, 2022 on its consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

Determination of Fair Value and Fair Value Hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Fair value measurement disclosures of financial and non-financial assets are presented in Note 27 to the consolidated financial statements.

“Day 1” Difference

When the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a “Day 1” difference) in the consolidated statements of comprehensive income unless it qualifies for recognition as some other type of asset or liability. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statements of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference amount.

Financial Instruments

Initial Recognition, Measurement and Classification

The Group recognizes financial assets and financial liabilities in the consolidated statements of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place are recognized on the settlement date.

With the exception of trade receivables that do not contain a significant financing component, financial assets and financial liabilities are recognized initially at fair value including transaction costs, except for those financial assets and liabilities at FVPL where the transaction costs are charged to expense in the period incurred. Trade receivables that do not contain a significant financing component are recognized initially at their transaction price.

The Group classifies its financial assets as subsequently measured at amortized cost, fair value through other comprehensive income (FVOCI) and FVPL.

The classification of financial assets depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing the financial assets. The Group’s business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Group’s business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Group classifies its financial liabilities as subsequently measured at amortized cost using the effective interest method or at FVPL.

The Group does not have any financial instruments that are measured and classified at FVPL.

Financial Assets at Amortized Cost

Financial assets are measured at amortized when both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and

- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, financial assets at amortized cost are subsequently measured using the effective interest method less allowance for impairment. Gains and losses are recognized in the statements of comprehensive income when the financial assets at amortized cost are derecognized, modified or impaired. These financial assets are included in current assets if maturity is within twelve (12) months from the end of reporting period. Otherwise, these are classified as noncurrent assets.

As at December 31, 2022 and 2021, included under financial assets at amortized cost are the Group's cash, trade and other receivables, and advances to related parties (see Notes 4, 5 and 20).

Cash

The Group's cash includes cash on hand and in banks. Cash in banks earn interest at respective bank deposit rates.

Trade and other receivables

Receivables consist of trade receivable, advances to third parties, rental receivable and utilities receivable.

Advances to related parties

Represent non-interest bearing cash advances to related parties for working capital requirements.

Equity Instruments Designated at FVOCI

Upon initial recognition, the Group may make an irrevocable election to present in other comprehensive income changes in the fair value of an equity investment that is not held for trading. The classification is determined on an instrument-by-instrument basis.

When the equity instrument is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is not subsequently reclassified to profit or loss, but is transferred to retained earnings. Dividends on such investments are recognized in profit or loss when the right of payment has been established, except when the dividends represent a recovery of part of the cost of the investment, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment. These financial assets are classified as noncurrent assets.

As at December 31, 2022 and 2021, the Group elected to classify irrevocably its unquoted equity investments under this category (see Note 7).

Financial Liabilities at Amortized Cost

Financial liabilities that are not contingent consideration of an acquirer in a business combination, held for trading, or designated as at FVPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

As at December 31, 2022 and 2021, included in financial liabilities at amortized cost are the Group's accounts payable and other liabilities, borrowings, advances from related parties, lease liability and advances from lessees (see Notes 11, 12, 20 and 22).

Accounts payable and other liabilities

Accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other current liabilities include non-trade payables and accrued expenses.

Advances from related parties

Represents cash advances to related parties for working capital requirements.

Advances from lessees

Represent payment of advance rental which shall be refunded without interest on the expiration of the lease or pre-termination of the lease period.

Borrowing cost

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the consolidated statements of comprehensive income in the period incurred.

Lease liability

Lease liability represents the Group's obligation to make lease payments for all leases with a term of more than twelve (12) months, unless the underlying asset is of low value is effectively treated as a financial liability which is measured at amortized cost, using its incremental borrowing rate as the discount rate.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Derecognition of Financial Instruments

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to third party under a “pass-through” arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability was discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

Impairment of Financial Assets

The Group recognizes an allowance for ECL for all debt instruments that are measured at amortized cost or at FVOCI. ECL is a probability-weighted estimate of credit losses over the expected life of the financial asset.

Credit losses are the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. The expected cash flows include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Group assesses at each end of the reporting period whether the credit risk on a financial asset has increased significantly since initial recognition. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to the lifetime ECL. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to 12-month ECL. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within twelve (12) months after the reporting period.

For trade and other receivables, the Group applies a simplified in calculating ECL. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment, including time value of money where appropriate.

For advances to third parties and related parties, the Group applies a general approach in calculating ECL. The Company recognizes a loss allowance using management's adopted policy on ECL at the end of each reporting period.

When the credit risk on financial instruments for which lifetime ECL have been recognized subsequently improves, and the requirement for recognizing lifetime ECL is no longer met, the loss allowance is measured at an amount equal to 12-month ECL at the current reporting period, except for assets for which simplified approach was used.

The Group recognizes impairment loss (reversals) in consolidated statements of comprehensive income for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of the financial asset in the consolidated statements of financial position.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the end of reporting period with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. the extent to which the fair value of a financial asset has been less than its amortized cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are one (1) day past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the end of reporting period. A financial instrument is determined to have low credit risk if:

- the financial instrument has a low risk of default;
- the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group)

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than one (1) year past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lenders of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lenders would not otherwise consider;

- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes-off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables and contract assets, when the amounts are over five (5) years past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in consolidated statements of comprehensive income.

Prepayments and Other Current Assets

Prepayments are expenses paid in advance and recorded as asset before they are utilized. Prepayments are initially recognized at cost and subsequently measured at cost less any utilized portion and impairment loss. This account comprises prepaid items which are apportioned over the period covered by the payment and charged to the appropriate accounts in the consolidated statements of comprehensive income when incurred.

Prepayments that are expected to be realized for not more than twelve (12) months after the reporting period are classified as current assets; otherwise, these are classified as other noncurrent assets.

An impairment loss is recognized for the amount by which the assets carrying amount exceeds its recoverable amount. Prepaid expenses are derecognized upon consumption and usage.

Input value-added tax (VAT) and Other Prepaid Taxes

Input VAT is the indirect tax paid by the Group on the local purchase of goods or services from a VAT-registered person. Creditable withholding tax pertains to taxes withheld by the customers upon payment and is to be deducted from income tax payable of the Group.

The Group's input tax and other prepaid taxes are initially recognized at face value and subsequently measured at face value less provision for impairment, if any. Allowance for unrecoverable input tax and other prepaid taxes, if any, are maintained by the Group at a level considered adequate to provide for potential uncollectible portion of the claims. The Group, on a continuing basis, makes a review of the status of the claims designed to identify those that may require provision for impairment loss.

Property and Equipment

Property and equipment are tangible assets that are held for use supply of services, for rental to others, or for administrative purposes, and are expected to be used during more than one (1) period.

Property and equipment are initially measured at cost. The cost of property and equipment comprises its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location of its intended use.

Subsequent to initial recognition, property and equipment are carried at cost less accumulated depreciation and any impairment in value.

Expenses that provide incremental future economic benefits to the Group are added to the carrying amount of an item of property and equipment. All other expenses are recognized in the consolidated statements of comprehensive income as incurred.

Depreciation of property and equipment commences once the property and equipment are available for use and computed using the straight-line basis over the estimated useful life of property and equipment as follows:

	In Years
Buildings and improvements	5 to 50
Machinery and equipment	4 to 32
Transportation equipment and tools	5 to 10
Furniture and fixtures	3 to 10
Right-of-use asset	2

The useful lives and depreciation method are reviewed annually to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment are retired or otherwise disposed of, the cost and the related accumulated depreciation and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations. Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged against current operations.

Investment Properties

Investment properties are for rental and capital appreciation, and not occupied by the Group.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties (except land) are carried at cost less accumulated depreciation and any impairment in value. Land is carried at cost less any impairment in value.

Expenses that provide incremental future economic benefits to the Group are added to the carrying amount of an item of property and equipment. All other expenses are recognized in the consolidated statements of comprehensive income as incurred.

Depreciation is computed using the straight-line method over the following estimated useful lives:

	In Years
Land improvements	5
Buildings and improvements	50

Investment properties are derecognized when either they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statement of comprehensive income in the year of retirement or disposal.

A transfer is made to investment property when there is a change in use, evidenced by ending of owner-occupation and commencement of an operating lease to another party. A transfer is made from investment property when and only when there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. A transfer between investment property, owner-occupied property and inventory does not change the carrying amount of the property transferred nor does it change the cost of that property for measurement or disclosure purposes.

Interest in Joint Operation

The Group has entered into joint operations for the development of properties.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When a Group undertakes its activities under joint operations, the Group as a joint operator recognizes in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly.
- Its liabilities, including its share of any liabilities incurred jointly.
- Its revenue from the sale of its share of the output arising from the joint operation.
- Its share of the revenue from the sale of the output by the joint operation.
- Its expenses, including its share of any expenses incurred jointly.

The Group accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the PFRS applicable to the particular assets, liabilities, revenues and expenses.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a sale or contribution of assets), the Group is considered to be conducting the transaction with the other parties to the joint operation, and gains and losses resulting from the transactions are recognized in the Group's consolidated financial statements only to the extent of other parties' interests in the joint operation.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a purchase of assets), the Group does not recognize its share of the gains and losses until it resells those assets to a third party.

Impairment of Non-financial Assets

At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). When the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted at their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized as an expense immediately.

When an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increase to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income.

Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are measured (initial and subsequent) at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Capital stock

Capital stock represents the par value of the shares of the Parent Company that are issued and outstanding as of reporting date.

Additional paid-in Capital

Additional paid-in capital includes any premium received on the initial issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Treasury shares

Treasury shares are own equity instruments which are reacquired and are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Treasury shares represent capital stock of the Parent Company that is owned by its subsidiary.

Deficit

Deficit includes all current and prior period results of operation as disclosed in the consolidated statements of comprehensive income.

Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the entity and the amount of revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for services provided in the normal course of business.

Rental income

Rental from investment properties that is leased to a third party under an operating lease is recognized in the consolidated statements of comprehensive income on a straight-line basis over the lease term. Rental received in advance is treated as advances from lessees and recognized as income when actually earned.

Interest income

Interest income is accrued on a time proportion basis, by reference to the principal amount outstanding and at the effective interest rate applicable.

Other income

Other income is income generated outside the normal course of business and is recognized when it is probable that the economic benefits will flow to the Group and it can be measured reliably.

Expense Recognition

Cost and expenses are recognized in the consolidated statements of comprehensive income when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. Expenses in the consolidated statements of comprehensive income are presented using the functional method.

Direct cost and expenses

Direct cost and expenses are recognized as expense when the related services are rendered.

Operating expenses

Operating expenses constitute costs of operating and administering the business and are expensed as incurred.

Income Tax

The tax expense for the period comprises current tax only. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income. Deferred income tax is determined using tax rates and laws, in the period the temporary difference is expected to be recovered or settled, that have been enacted or substantively enacted as at reporting period.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each reporting date the Group reassesses the need to recognize previously unrecognized deferred income tax asset.

Deferred income tax assets are recognized for all deductible temporary differences, carrying forward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, carrying forward benefits of unused tax credits from excess of MCIT over RCIT and unused NOLCO can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax asset against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Leases

Group as Lessee

At inception of a contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group has elected to apply the practical expedient to account for each lease component and any non-lease components as a single lease component.

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group applies the practical expedient not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases is recognized as an expense on a straight-line basis over the lease term.

Group as Lessor

Leases wherein the Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating lease. Lease income from operating lease is recognized in the consolidated statement of comprehensive income on a straight-line basis over the lease term.

The Group determines whether an arrangement is, or contains a lease based on the substance of the arrangement. It makes an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

The Group is a party to operating leases as a lessor. Rentals received under operating leases are charged to consolidated statements of comprehensive income (net of any incentives).

Related Party Relationships and Transactions

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

Related party relationship exists when: (a) a person or a close member of that person's family has control or joint control, has significant influence or is a member of the key management personnel of the reporting entity or of a parent of the reporting entity; and (b) when any of the following conditions apply: (i) the entity and the Group are members of the same group; (ii) one entity is an associate or joint venture of the other entity; (iii) both entities are joint ventures of the same third party; (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third party; (v) the entity is a post-employment benefit plan for the benefit of employees of the Group; (vi) the entity is controlled or jointly controlled by a person as identified in (a) above; (vii) the entity or any member of a group of which it is part, provides key management personnel services to the Group or to the parent of the Company; (viii) a person identified in (a) above has significant influence over the entity or is a member of the key management personnel of the entity or of a parent of the entity.

In considering each possible related party relationship, attention is directed to the substance of the relationships, and not merely the legal form.

Retirement Benefits Obligation

The Group has no formal retirement plan for its employees as it does not meet the minimum number of employees required for the establishment of a retirement benefit plan, but accrues the estimated cost of retirement benefits required by the provisions of Republic Act (RA) No. 7641 (Retirement Law). Under RA 7641, the Group is required to provide minimum retirement benefits to qualified employees. The retirement cost accrued includes current service cost and estimated past service cost as determined under RA 7641.

Segment Reporting

A business segment is a Group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and return that are different from those of segments operating in other economic environments.

Operating segments are reported on the basis upon which the Group reports its primary segment information. Financial information on business segments is presented in Note 21.

Earnings (Loss) Per Share

Earnings (loss) per share are determined by dividing net income (loss) for the year by the weighted average number of common shares outstanding during the year, excluding common shares purchased by the Group and held as treasury shares.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. When the Group expects a provision or loss to be reimbursed, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in the consolidated statements of comprehensive income, net of any reimbursement.

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the consolidated financial statements.

Events After the Reporting Date

The Group identifies post-year events as events that occurred after the reporting date but before the date when the consolidated financial statements were authorized for issue. Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgments and estimates that affect amounts reported in the consolidated financial statements. These judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group believes the following represent a summary of these significant judgments and estimate and related impact and associated risks in the consolidated financial statements.

Significant Accounting Judgments in Applying the Group's Accounting

In the process of applying the Group's accounting policies, management has made the following judgments apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Leases

Group as lessee

The Group has entered into contract of lease for its office space it occupies. In determining the substance of the lease, the Group considered, among others, whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Based on management judgment, the Group's lease for its office space has substance of lease, thus, the Group recognized right-of-use asset representing the right to use the leased asset and lease liability representing its obligation to make lease payments.

Group as lessor

The Group has entered into property leases on its buildings classified as investment properties. The Group has determined that it retains all significant risks and rewards of ownership of the property as the Group considered, among others, the length of the lease term as compared with the estimated life of the assets. The Group's operating lease contracts are accounted for as non-cancellable operating leases. In determining whether a lease contract is non-cancellable, the Group considers the provisions in the lease contract which among others, the payment of rental corresponding to the unexpired portion of the lease period. The Group accounts the lease of its buildings under operating lease in accordance with the provision of lease contract and terms of the lease.

Distinction between investment properties and interest in joint operation

The Group determines whether a property contributed to joint venture operations will be classified as investment properties or investment in joint venture. In making this judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by the Group or whether it will be retained as part of the Group's asset and treated as the Group's share in the joint venture, based on the provisions governing the joint venture agreement. The Group considers land contributed to the joint venture as its investment. The Group, in the normal course of business does not hold land to earn rentals or for capital appreciation; accordingly, land invested in the joint venture is classified as interest in joint operation (see Note 9).

Realizability of input VAT

The Group reviews and assesses its input VAT for its recoverability. Factors which primarily affect the recoverability include the completeness of the supporting documentation, entitlement to claim VAT paid as input tax credit against output tax liabilities and future taxable revenue. As at December 31, 2022 and 2021, the Group assessed that its input VAT is recoverable in future periods.

The Group's input VAT amounted to ₱4,492,812 and ₱4,024,213 as at December 31, 2022 and 2021, respectively (see Note 6).

Operating segments

The Group is organized and managed separately according to the nature of business. The Group reports its segment information according to its activities. Reportable segment operation pertains to the Group's leasing activity, while the non-reportable segment operation pertains to manufacturing operation, and mining and oil exploration (see Note 21).

Provisions and contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition and disclosure of provision and disclosure of contingencies are discussed in Note 2.

Significant Accounting Estimates and Assumptions

Determination of ECL on trade and other receivables, and advances to related parties

The measurement of the allowance for ECL on financial assets at amortized cost is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 25.

The carrying amount of the Group's trade and other receivables amounted to ₱29,747,227 and ₱37,333,705 as at December 31, 2022 and 2021, respectively. Allowance for ECL recognized in the statements of financial position amounted to ₱81,472,858 and ₱86,474,558 as at December 31, 2022 and 2021, respectively (see Note 5).

The carrying amount of the Group's advances to related parties amounted to ₱25,674,564 and ₱30,582,214 as at December 31, 2022 and 2021, respectively. Allowance for ECL recognized in the statements of financial position amounted to ₱129,010,691 and ₱132,103,302 as at December 31, 2022 and 2021, respectively (see Note 20).

Useful lives of property and equipment, and investment properties

The Group estimates the useful lives of property and equipment, and investment properties, except land, are based on the period over which the assets are expected to be available for use. The estimated useful lives are reviewed and updated if expectations differ from previous estimates due to physical wear and tear. The estimation of the useful lives of the property and equipment, and investment properties is based on a collective assessment of industry practice and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above.

The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of the property and equipment, and investment properties would increase recorded operating expenses and decrease noncurrent assets.

The net carrying values of the Group's investment properties (except land) and property and equipment as at December 31 are as follows:

	2022	2021
Investment properties - note 8	₱45,992,266	₱ 48,890,261
Property and equipment - note 10	1,063,959	1,764,075
	₱47,056,225	₱ 50,654,336

Impairment of non-financial assets

Non-financial assets are periodically reviewed to determine any indication of impairment. Though management believes that the assumptions used in the estimation of fair values are reasonable and appropriate, significant changes in these assumptions may materially affect the assessment of the recoverable amounts and any resulting impairment loss could have a material adverse effect in the results of operations.

The accumulated impairment losses on investment properties, investment in joint operation, and property and equipment amounted to ₱237,408,239, ₱47,641,000 and ₱80,120,199, respectively, as at December 31, 2022 and 2021 (see Notes 8, 9 and 10).

Retirement benefits obligation

The determination of the Group's obligation and cost of pension benefits is dependent on certain assumptions used by management in calculating such amounts. Any changes in these assumptions will impact the carrying amount of retirement benefit obligation. In estimating the Group's retirement benefit obligation, the Group used the minimum required retirement payment of 22 ½ days for every year of service as mandated by RA 7641. The Group also the employees' current salary rate and the employees' number of service years considers.

Retirement benefits obligation as at December 31, 2022 and 2021, amounted to ₱834,000 and ₱792,300, respectively (see Note 18). The Group believes that the retirement benefits obligation and retirement expense would not materially differ had the Group used projected unit credit method for the computation of retirement benefits because of minimal number of employees.

Deferred tax assets

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The recognition of deferred tax assets is based on the assessment that the Group will generate sufficient taxable profit to allow all or part of the deferred tax assets will be utilized.

The Group looks at its projected performance in assessing the sufficiency and timing of future taxable income. Based on management assessment, the Group would not be able to realize the deferred tax assets in the near future. As at December 31, 2022 and 2021, the Group's unrecognized deferred tax assets amounted to ₱172,721,310 and ₱174,760,912, respectively, is disclosed in Note 19.

4. CASH

Cash as at December 31 are as follows:

	2022	2021
Cash on hand	₱ 20,000	₱ 20,000
Cash in banks	8,714,752	9,569,982
	₱8,734,752	₱ 9,589,982

Cash in banks earns interest at the respective bank deposit rates ranging from 0.16% to 0.24% per annum in 2022, 2021 and 2020. Interest income earned from deposit amounted to ₱14,110, ₱23,949, and ₱6,216 in 2022, 2021, and 2020 respectively (see Note 16).

There is no restriction on the Group's cash in banks as at December 31, 2022 and 2021.

5. TRADE AND OTHER RECEIVABLES (net)

Trade and other receivables (net) as at December 31 are as follows:

	2022	2021
Trade receivable – note 20	₱ 318,506	₱ 11,215,841
Advances to third parties	109,912,035	109,291,112
Rental receivable – note 22	513,868	2,867,580
Utilities receivable	323,197	291,898
Others	152,479	141,832
	111,220,085	123,808,263
Allowance for ECL	(81,472,858)	(86,474,558)
	₱ 29,747,227	₱ 37,333,705

Trade receivables as at December 31, 2021 pertains mainly of outstanding receivable from PHES pertaining to the Group's share in the proceeds of the lot sold in 2015 held as interest in joint venture.

Advances to third parties represent receivable from previously disposed subsidiaries.

Rent receivables are non-interest bearing and are collectible within thirty (30) days.

Other receivables include advances to employees and reimbursable expenses from PCIC subsidiaries' tenants.

Certain receivables were found to be impaired using the provisional matrix as determined by the management, hence, adequate amounts of allowance for impairment have been recognized (see Note 25).

The movement in the allowance for ECL is as follows:

	2022	2021
Balance at beginning of year	₱86,474,558	₱ 90,825,700
Reversal of ECL – note 16	(5,001,700)	(4,351,142)
At end of year	₱81,472,858	₱ 86,474,558

The Group's trade and other receivables as at December 31, 2022 and 2021 are not held as collateral for its liabilities and are free from any encumbrances.

6. PREPAYMENTS AND OTHER CURRENT ASSETS

Prepayments and other current assets as at December 31 are as follows:

	2022	2021
Creditable withholding tax	₱12,402,965	₱ 12,139,235
Input VAT	4,492,812	4,024,213
Prepaid expense	192,055	160,046
Deferred input VAT	85,618	85,952
Prepaid withholding tax	55,247	55,247
	₱17,228,697	₱ 16,464,693

As at December 31, 2022 and 2021, respectively, no provision for impairment has been recorded since management believes that the accounts are fully realizable.

7. FINANCIAL ASSET AT FVOCI

The Group's financial asset at FVOCI consists of investment in unquoted shares of stock amounting to ₱12,500,000 represents ownership in Bulacan Harbour Dev't. Corp. This investment is irrevocably designated at FVOCI as the Group considers this investment to be strategic in nature and it holds this investment to foreseeable future. The cost of the investment approximates its fair value.

The Group's financial assets at FVOCI as at December 31, 2022 and 2021 are not held as collateral for its financial liabilities.

8. INVESTMENT PROPERTIES (net)

Details of investment properties as at December 31 are as follows:

The aggregate fair value of the investment properties amounted to ₱3,543,635,160 and ₱3,378,711,000, as at December 31, 2022 and 2021, respectively.

The fair values are based on combination of appraisal done by an independent appraiser on various dates in 2022 and using the market approach, in which the fair value is based on prices recently paid for similar assets, with adjustment made to the indicated market prices to reflect condition and utility of the appraised assets relative to the market comparable.

The fair value of the land was arrived using the sales comparison approach. This comparative approach, considers the sales of similar or substitute properties and related market data, and establishes a value estimate by process involving comparison. The value of the building and improvements was arrived at using cost approach. In the cost approach, an estimate is made of the current replacement/reproduction cost, new of the replaceable property in accordance with the prevailing market prices for materials, equipment, labor, contractor's overhead, profit, fees and all other attendant costs associated with its acquisition, installation and construction in place, but without provision for overtime or bonuses for labor and premiums for materials.

The fair value information of investment properties is disclosed in Note 27.

Land with aggregate amount of ₱6,484,935 was under litigation as at December 31, 2021. However in 2022, the land was swapped with another property which is about the same size and location that was owned by certain individuals (see Note 24).

Except from restrictions described above, there are no other restrictions on the realizability of its investment properties and no other contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

9. INTEREST IN JOINT OPERATION (net)

The Group's interest in joint operation represents land contributed to the Joint Operation.

In July 1997, the Group, together with International Polymer Corp. (IPC), Pacific Rehouse Corp. (PRC) and Ropeman International Corp. (RIC), entered into a Joint Venture Agreement (the "Agreement") as Owners with Philippine Estates Corporation (PHES), as Developer. Under the Agreement, the owners contributed land with an approximate area of 29.5629 hectares located in Canumay, Valenzuela City, whereby PHES will develop an industrial estate in accordance with the plans mutually agreed by venturers.

The developer is entitled to forty percent (40%) of the net proceeds after deducting all relevant taxes, marketing and administrative expenses, and the remaining sixty percent (60%) of shall constitute the owners share, divided proportionately to the areas of property contributed.

Track record of registration of securities

The Parent Company was originally registered as REDECO with the SEC on October 19, 1956. The Parent Company was listed with the PSE on January 9, 1958 with an initial registered 200,000,000 shares.

On May 25, 1995, the BOD and stockholders approved a reverse stock split and a subsequent increase in the authorized capital stock in line with its recapitalization program. Accordingly, on November 15, 1995, the Parent Company filed with the SEC a motion to effect a 1-for-5 reverse stock split which decreased its authorized capital from ₱75 million divided into 75 million shares to ₱15 million divided into 15 million shares, both with a par value of ₱1 per share. It was approved by the SEC on January 15, 1996. This was also done in order to recall all outstanding stock certificates and be able to account for the over-issuance of shares which management has decided to be absorbed by the Parent Company.

On January 8, 1996, the Parent Company filed with the SEC a motion to increase its authorized capital stock from ₱15 million divided into 15 million shares to ₱1 billion divided into 1 billion shares with a par value of ₱1. The increase was approved by the SEC on May 16, 1996. Subscriptions to the increase in authorized capital stock were made through stocks-for-assets swap.

On September 2, 1996, the BOD and the stockholders approved a resolution to amend the Parent Company's Articles of Incorporation changing the par value per share of its capital stock from ₱0.01 to ₱1.00, removing the pre-emptive rights of shareholders and increasing the authorized capital stock from ₱500 million divided by 50 billion shares with a par value of ₱0.01 per share to ₱2.0 billion divided into 2.0 billion shares with a par value of ₱1.00 per share. The proposed amendments were approved by the SEC on September 27, 1996.

Relative to the approval of the proposed amendment, any part of such stock or other securities may, at any time, be issued, optioned for sale and sold or disposed of by the Parent Company pursuant to resolution of the BOD, to such persons and upon such terms as the BOD may deem proper, without first offering such stock or securities or any part thereof to existing stockholders.

On August 22, 1997, the BOD and the stockholders approved a further increase in the Parent Company's authorized capital stock from ₱2.0 billion to ₱3.5 billion divided into 3.5 billion shares with a par value of ₱1.00 per share. On March 11, 1998, the SEC approved the increase in the Parent Company's authorized capital stock.

As at December 31, 2022, 2021 and 2020, the Parent Company has outstanding 3,271,952,740 shares and 3,271,938,180 shares under its name, respectively. Remaining unconverted shares under REDECO as at December 31, 2022, 2021, and 2020, is 4,092,897 shares and 4,107,457 shares, respectively. Outstanding shares owned by the public are 1,413,467,270 in 2022, 2021 and 2020.

(a) *Receivable from co-venturer*

The Group has outstanding receivable from PHES pertaining to the Group's share in the proceeds of the lot sold in 2015 held as interest in joint operation (see Note 9). This receivable is unsecured, unguaranteed and to be settled in cash. In 2023, the receivable was offset to advances from stockholders.

(b) *Receivable from related parties with common key management*

The Group pays operating expenses on behalf of GMC. These receivables are normally collected the following year, unsecured, non-interest bearing and with no guarantee and to be settled in cash. The Group has also made offsetting arrangements to settle intercompany receivables and payables.

(c) *Advances to related parties with common key management*

PWL

On November 24, 2009, Philippine Veterans Bank foreclosed land to secure payment of loan of an affiliate amounting to ₱88.8 million by virtue of the real estate mortgage, executed by the Group. The property was sold at an auction to the highest bidder Philippine Veterans Bank which tendered an amount of ₱71.326 million.

The Group recognized advances to PWL of ₱105.06 million for the value of the land foreclosed to settle the affiliate loan with the bank.

The advances are unsecured, with no definite terms of repayment and with no guarantee and to be settled in cash.

TWGI

On December 16, 2020, TWGI issued promissory note amounting to ₱46,578,262 for five years maturing December 15, 2025 and bear an interest of 2% per annum. Interest income earned amounted to ₱931,565, ₱931,565 and ₱38,273 for the years ended December 31, 2022, 2021 and 2020 (see Note 16).

To settle the outstanding advances, the Group entered into the following contracts with TWGI, which in return, amounts incurred will be applied to the outstanding advances:

- The Group entered into a Consultancy Agreement with TWGI which is valid until April 30, 2022. Total consultancy fees incurred for the years December 31, 2022, 2021 and 2020 amounted to ₱480,000, shown under 'Professional fees' account in operating expenses.
- Lease Agreement for the Group's office space for a monthly rental of ₱12,500, utilities of ₱5,000, and storage fee of ₱1,000 which is valid until April 30, 2024. Total utilities amounted ₱72,000 for the years ended December 31, 2022, 2021 and 2020. The Group recognized the asset as 'right-of-use asset' and corresponding lease liability.

The present value of the lease liability as at December 31 is as follows:

	2022	2021
Current	₱143,349	₱ 41,806
Noncurrent	48,323	–
	₱191,672	₱ 41,806

The future minimum lease payments as at December 31 are as follows:

	2022	2021
Not later than one year	₱150,000	₱ 50,000
Later than one year but not later than five years	50,000	–
Future minimum lease payments	200,000	50,000
Amounts representing finance charges	(8,328)	(8,194)
	₱191,672	₱ 41,806

The net carrying amount of the right-of-use assets recognized as at December 31, 2022 and 2021 is disclosed in Note 10.

Total finance costs charged to operations for the years ended December 31, 2022, 2021 and 2020 amounted to ₱14,789, ₱31,433 and ₱40,000, respectively (see Note 17).

CMC and PHES

The Group provided non-interest bearing and unguaranteed advances to CMC and PHES for working capital requirements. The advances are unsecured, with no definite terms of repayment and with no guarantee.

Certain advances to related parties were found to be impaired using the provisional matrix as determined by the management, hence, adequate amounts of allowance for ECL have been recognized (see Note 26).

The movement in the allowance for ECL is as follows:

	2022	2021
Balance at beginning of year	₱ 132,103,302	₱ 133,293,373
Reversal of ECL – note 16	(3,092,611)	(1,190,071)
At end of year	₱129,010,691	₱ 132,103,302

(d) Advances from related parties

In prior years, the Group obtained unguaranteed and non-interest-bearing cash advances from related parties intended to finance its operating expenses, capital expenditures and payment of outstanding obligations. The Group has not made any arrangement for the terms, security and guarantee on the advances as the subsidiaries has ceased its manufacturing operations. The advances are payable in cash upon settlement depending on the availability of funds. The Group was granted an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. The management assessed that the advances from the related parties are not expected to be settled within 12 months from the reporting period.

(e) PHES

In 2009, the Group and PHES executed unsecured promissory note (PN) for the advances with a term of five (5) years, and bear interest of three percent (3%) per annum, renewable upon agreement of the parties. This PN was renewed in 2014 with a three-year term which matured during 2018 at interest of two percent (2%) per annum. This cash advance is to be settled through cash payments. On December 29, 2016, the PN was renewed for three (3) years and matured in January 2021. The promissory note is extended for an additional three (3) years from January 31, 2021 to January 31, 2024. Finance cost recognized in the statements of comprehensive income amounted to ₱713,482 and ₱512,433 in 2022 and 2021, respectively (see Note 17).

(f) Advances from key management

The Group obtains non-interest bearing and unsecured advances from stockholders and key officers for working capital purposes. The advances have no guarantee and definite terms of repayment. Payment will depend on the availability of funds. The Group was granted an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. The management assessed that the advances from the related parties are not expected to be settled within 12 months from the reporting period.

(g) *Remuneration of key management personnel.*

Directors' fees paid for the years ended December 31, 2022, 2021 and 2020 amounted to ₱50,000, ₱60,000 and ₱30,000, respectively.

With the cessation of the subsidiaries commercial operations in prior years and the Group is in tight cash position, management decided to suspend any form of compensation to key management and officers effective in 2004.

21. BUSINESS SEGMENT INFORMATION

a) Segment information

The Group's operating business segment are organized and managed separately according to business activities. The Group's management monitors the operating result of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. However, Group's financing which includes finance cost, impairment of assets and income taxes are managed on a group basis and are not allocated to operating segments.

The Group has no geographical segment for segment reporting format as the Group's risks and rates of return are in the same economic and political environment, with the Group is incorporated and operating in the Philippines.

The Group has only one (1) operating segment representing the Group's leasing activity on its idle properties as warehouses to third parties. Non-reportable segments represent the Parent Company's discontinued operations of the manufacturing operation and mining and oil exploration which is under development. The Parent Company does not earn revenue or may earn revenue that is only incidental to activities such as interest income.

The segment information on reportable segment is as follows:

	2022	2021	2020
Revenue of reportable segment	₱20,047,766	₱23,857,767	₱29,882,741
Other income (expense)	4,103,543	(2,470,237)	(744,105)

b) Entity-wide information

The Group is domiciled in the Philippines. All revenues generated are from the Philippines. The revenue shown above represents the total Group's revenue from lease of real properties.

22. LEASES

The Group entered into lease contracts with various tenants for the rental of the Group's warehouse and building facilities. The lease term ranges from three (3) months to one (1) year and is renewable under such terms and conditions as the parties may agree, provided that at least ninety (90) days prior to the expiration of the lease period, the lessee shall inform the lessor in writing of his desire to renew the lease.

Lease contracts include payment of advance rental by the lessee which shall be refunded without interest on the expiration of the lease or pre-termination of the lease period, less any corresponding obligation and damages. Outstanding advances from lessees amounted to ₱3,631,755 and ₱6,327,584 as at December 31, 2022 and 2021, respectively, as shown in the consolidated statements financial position.

Deferred rental income relative to the lease amounted to ₱2,285,198 and ₱2,667,285 as at December 31, 2022 and 2021, respectively, as shown under ‘Accounts payable and other liabilities’ account (see Note 11).

The future minimum lease receivables are as follows:

	2022	2021	2020
Due within 1 year	₱2,285,198	₱ 2,667,285	₱ 2,526,198
Due beyond 1 year but not more than 5 years	-	-	-
	₱2,285,198	₱ 2,667,285	₱ 2,526,198

The carrying amount of the buildings being leased out is ₱27,035,257 and ₱26,212,361 as at December 31, 2022 and 2021, respectively (see Note 8).

Outstanding balance of receivable from tenants as at December 31, 2022 and 2021 amounted to ₱513,868 and ₱2,867,580, respectively (see Note 5). Total rental income is ₱20,047,766, ₱23,857,767, and ₱29,882,741 in 2022, 2021, and 2020, respectively (see Note 8).

23. EARNINGS (LOSS) PER SHARE

The following table presents information necessary to calculate the loss per share:

	2022	2021	2020
Consolidated net income (loss) for the year	(₱ 2,710,044)	(₱ 3,533,091)	₱ 35,842,809
Weighted average number of common shares outstanding during the year	3,276,035,637	3,276,035,637	3,276,035,637
Earnings (loss) per share	(₱ 0.0008)	(₱ 0.0011)	₱ 0.0109

24. COMMITMENTS AND CONTINGENCIES

Commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group are not reflected in the accompanying Group consolidated financial statements. Management is of the opinion that losses, if any, from these commitments and contingencies will not have a material effect on the Group consolidated financial statements.

- a. On September 7, 1999, the BOD approved the execution of a third-party real estate mortgage on the Group’s properties located in Quezon City with an actual area of 6,678 square meters to secure the loan of Waterfront Philippines, Incorporated (WPI), an affiliate, with the Social Security System (SSS) amounting to ₱375 million. In 2003, SSS foreclosed the asset mortgaged in the amount of ₱198,639,000.

The Group filed a civil case against SSS on the foreclosed property claiming for sum of money and damages in the amount of ₱500 million. On January 12, 2015, the contract of loan and real estate mortgage were declared null and void by the RTC. Thus, WPI was directed to return the amount of ₱375 million to SSS and for SSS to return the properties and shares used as collateral. SSS filed an appeal to the Court of Appeals.

On August 30, 2019, the Court of Appeals issued its Decision reversing the RTC's Decision dated January 13, 2015 and Order dated May 11, 2015. The CA declared that the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock" and the extra judicial foreclosure sale of the Green Meadows properties covered by Transfer Certificate of Title Nos. N-153395 and N-153396 are valid.

The CA ordered WPI to satisfy the deficiency under the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock" in the sum of ₱841,567,136.85 due to SSS as of April 30, 2010. This obligation shall earn the stipulated interest and penalty charges, in accordance with the terms and conditions of the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock", computed from April 30, 2010 until finality of the Decision.

On November 4, 2019, the Group together with WPI and TWGI filed a Petition for Review on Certiorari before the Supreme Court (SC). The SC in its decision dated July 6, 2021 granted the petition and the CA's Decision dated August 30, 2019 was reversed and set aside. SSS filed its Motion for Reconsideration dated January 28, 2022 praying for the dismissal of WPI's Petition for Certiorari. On September 21, 2022, the SC issued a resolution denying SSS's Motion for Reconsideration with finality. On December 20, 2022, the SC issued an Entry of Judgment.

- b. On June 24, 2019, the Group filed a civil case for annulment of public auction reconveyance, cancellation and reinstatement of title and damages with the Regional Trial Court of San Mateo Rizal (RTC). The complaint filed was dismissed by the RTC through the Resolution dated October 30, 2019 for failure of the Group to pay the full jurisdictional amount. The Group filed Motion for Reconsideration arguing that it was ready and willing to pay the full jurisdictional amount had the Office of the Clerk of Court (OCC) made the proper assessment, which was its duty and in which assessment plaintiff merely relied on. The Group also argues that the rule on the payment of docket fees should apply by analogy since the deposit required is also a jurisdictional amount and, accordingly, should be given time to pay the deposit upon reassessment by the OCC. On February 10, 2020, the Motion for Reconsideration was dismissed for lack of merit.

On March 13, 2020, the case was escalated to the Supreme Court by filing a Petition for Review on Certiorari with the grounds that the RTC resolved the case in a way not in accord with the law and with the applicable decisions of the Supreme Court. Instead of dismissing the instant case, the RTC should have directed the Office of the Clerk of Court to assess the deposit, or the petitioner to make the correct deposit, required under Section 267 of R.A. 7160, consistent with the rule on the payment of jurisdictional amounts. On September 2, 2020, the Supreme Court denies the Petition for Review on Certiorari.

On October 27, 2020, the Group asked the Supreme Court to consider the Resolution promulgated on September 2, 2020 and to issue another reversing and setting aside the resolution dated October 30, 2019, and the resolution dated February 10, 2020 issued by the RTC, and directing the office of the clerk of Court of the RTC of San Mateo, Rizal to assess the filing fees and the amount of deposit and interest that should be paid by petitioner, and directing the RTC, Branch 75 of San Mateo, Rizal to reinstate the instant case.

On March 11, 2021, the Group received the notice from the Supreme Court dated January 25, 2021, denying the Motion for Reconsideration but before the Group can refile the case with the RTC, the Group received an offer from certain individuals to assume the above subject properties on an as-is-where-is basis on an exchange for their properties near the same location. The estimated values of the swapped properties are approximately the same. In order to avoid additional costs of a lengthy court dispute, the BOD has decided to accept the offer of asset-swap in a special meeting held on December 17, 2021.

On February 23, 2022, the Group and certain individuals entered into a Memorandum of Agreement whereby both parties have voluntarily agreed, by and between themselves, to exchange their respective properties, on as-is-where-is basis.

25. FINANCIAL RISKS MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks which results from both its operating and financing activities. The Group's risk management is coordinated with the Group, in close cooperation with the BOD, and focuses on actively securing the short-term cash flows by minimizing the exposure to financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options.

The most significant financial risks to which the Group is exposed to are described below.

Credit risk

Credit risk refers to the risk that counterparty will default its contractual obligation resulting in financial loss to the Group. The Group's credit risk is primarily attributable to its financial assets which composed of cash, trade and other receivables and advances to related parties.

The Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments, as summarized below:

Credit risk exposure

The Group's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements arises from the carrying amount financial assets recognized in the consolidated statements of financial position.

In order to minimize credit risk, the Group has developed and maintained internal credit risk grading to categorize exposures according to their degree of risk of default. The Group uses its own trading records to rate its major customers and other debtors.

The Group's current credit risk grading framework is as follows:

Category	Description	Basis for recognizing ECLs	Base	Minimum allowance for credit losses	Stage
Performing	The counterparty has a low risk of default and does not have any past due amounts	12-month ECL	0%	0%	1
Doubtful	Amount is 1-30 days past due or there has been a significant increase in credit risk since initial recognition	Lifetime ECL – not credit-impaired	25%	1%	2
	Amount is 31-90 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL – not credit-impaired	25%	5%	2
	Amount is 91-180 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL – not credit-impaired	25%	10%	2
	Amount is 181-360 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL – not credit-impaired	25%	25%	2
In default	Amount is over 1 year to 2 years past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	50%	25%	3
	Amount is over 2 year to 3 years past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	100%	25%	3
	Amount is over 3 year to 5 years past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	100%	50%	3
Write off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	100%	100%	3

The maximum credit risk exposure of the financial assets is the carrying amount of the financial assets shown on the face of consolidated statements of financial position, as summarized below:

		December 31, 2022			
		Basis of recognizing ECL	Gross carrying amount	Loss allowance	Net carrying amount
Cash in banks – note 4	(a)		₱ 8,714,752	₱ –	₱ 8,714,752
Trade and other receivables – note 5	(b)	Lifetime ECL	111,220,085	(81,472,858)	29,747,227
Advances to related parties – note 20	(b)	Lifetime ECL	154,685,255	(129,010,691)	25,674,564
Total			₱274,620,092	(₱210,483,549)	₱64,136,543

		December 31, 2021			
		Basis of recognizing ECL	Gross carrying amount	Loss allowance	Net carrying amount
Cash in banks – note 4	(a)		₱ 9,569,982	₱ –	₱ 9,569,982
Trade and other receivables – note 5	(b)	Lifetime ECL	123,808,263	(86,474,558)	37,333,705
Advances to related parties – note 20	(b)	Lifetime ECL	162,685,516	(132,103,302)	30,582,214
Total			₱296,063,761	(₱218,577,860)	₱ 77,485,901

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash as described below.

(a) Cash

The credit risk for cash in banks is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Cash in banks are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of ₱500,000 for every depositor per banking institution.

(b) Trade and other receivables and advances to related parties

Trade and other receivables

Credit risk arising from rental income from leasing of buildings is primarily managed through a tenant selection process. Prospective tenants are evaluated on the basis of payment track record and other credit information. In accordance with the provisions of the lease contracts, the lessees are required to deposit with the Group security deposits and advance rentals which helps reduce the Group's credit risk exposure in case of defaults by the tenants.

For existing tenants, the Group has put in place a monitoring and follow-up system. Receivables are aged and analyzed on a continuous basis to minimize credit risk associated with these receivables.

The Group has applied simplified approach to measure the loss allowance using management's adopted policy on ECL on trade and other receivables.

Advances to related parties

For advances to related parties, the Group has applied the general approach to measure the loss allowance using management's adopted policy on ECL. The Group determines the ECL on these items by using historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

To measure the ECL, trade and other receivables have been grouped based on shared credit risk characteristics and the days past due. The Group has therefore concluded that the expected loss rates for trade and other receivables parties are a reasonable approximation of the loss rates for the financial assets.

On that basis, the loss allowance as at December 31, 2022 and 2021 was determined based on ageing of receivables, as follows:

December 31, 2022	Trade and other receivables	Advances to related parties	Total

The management continues to review trade and other receivables and advances to related parties for any legally enforceable right to offset with liabilities with the expressed intention of the borrower to settle on a net basis.

Impaired accounts represent account of third parties and related parties that have not paid for a long time and for which the Group believes that a portion of the receivables may not be collected. The allowance is estimated based on the Group's estimate for accounts which it believes may no longer be collected.

Equity price risk

Equity price risk is the risk that the fair value of equity instrument decreases as a result of changes in the value of individual stocks. The Group's exposure to equity price risk arises from investments held by the Group and classified in the Group's consolidated statements of financial position as financial asset at FVOCI.

Equity instruments designated at FVOCI in unquoted price are held for strategic rather than trading purposes. The Group does not actively trade these investments.

If the price of the financial assets at FVOCI had been 10% higher/lower other comprehensive income for the years ended December 31, 2022 and 2021 would decrease/increase by ₱1,250,000.

Liquidity risk

The Group's policy is to maintain a balance between continuity of funding through cash advances from related parties.

The following table details the Group's remaining contractual maturity for its financial liabilities. The table below has been drawn up based on undiscounted cash flows of financial liabilities based on earliest date on which the Group can be required to pay.

	₱ 440,905,301	₱11,786,044	₱ 413,082	₱453,104,427

*excluding government liabilities

Substantial portion of the Group's financial liabilities consist of advances from related parties. There is no specific terms of advances agreed with the related parties. The Group does not expect to pay its liabilities with related parties nor expect related parties to collect within twelve (12) months after the reporting date. Furthermore, advances from affiliates and stockholders were settled through assignment and offsetting among the Group.

26. CAPITAL RISKS MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for stockholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group defines capital as share capital and deficit for the purpose of capital management.

Consistently with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total liabilities as shown in the consolidated statements of financial position less cash. Total capital is calculated as Equity as shown in the consolidated statements of financial position plus Net debt.

Gearing ratio compares some form of owner's equity to borrowed funds. It is a measure of financial leverage demonstrating the degree to which the Group's activities are funded by owner's funds versus creditors' funds.

In 2022, the Group's strategy, which was unchanged from 2021, was to keep the gearing ratio below 50% as proportion to net debt to capital. The gearing ratios as at December 31 were as follows:

	2022	2021
Debt	₱ 437,872,855	₱ 454,638,725
Cash	(8,734,752)	(9,589,982)
Net debt	429,138,103	445,048,743
Total equity	1,200,149,088	1,202,859,132
Total capital	1,629,287,191	₱1,647,907,875
Gearing ratio	0.26:1	0.27:1

The status of the Group's operation and management plan is fully disclosed in Note 1.

The Parent Company is subject to externally imposed capital requirement amounting to ₱6,250,000 which is the minimum paid-up capital requirement of SEC for mining companies. As at December 31, 2022 and 2021, the Parent Company is in compliance with this externally imposed capital requirement.

On the other hand, the Parent Company's subsidiaries are not subject to any externally imposed capital requirements.

27. FAIR VALUE INFORMATION

Assets and liabilities not measured at fair value

The following table gives information about how the fair values of the Group's assets and liabilities, which are not measured at fair value but the fair values are disclosed at the end of each reporting period, are determined.

	2022		Fair value hierarchy	Valuation techniques
	Carrying Value	Fair Value		
Financial Assets				
Advances to related parties	₱25,674,564	₱ 24,403,183	Level 2	(a)
Non-Financial Assets				
Investment properties	1,020,012,613	3,543,635,160	Level 2	(b)
Interest in joint operation	522,916,369	2,406,850,000	Level 2	(b)
	₱1,542,928,982	₱5,950,485,160		

	2022		Fair value hierarchy	Valuation techniques
	Carrying Value	Fair Value		
Financial Liabilities				
Advances from related parties	₱ 427,626,039	₱ 406,450,381	Level 2	(a)

	2021		Fair value hierarchy	Valuation techniques
	Carrying Value	Fair Value		
Financial Assets				
Advances to related parties	₱ 30,582,214	₱ 30,082,928	Level 2	(a)
Non-Financial Assets				
Investment properties	1,022,906,608	3,378,711,000	Level 2	(b)
Interest in joint operation	526,250,284	2,406,850,000	Level 2	(b)
	₱ 1,549,156,892	₱5,785,561,000		

	2021		Fair value hierarchy	Valuation techniques
	Carrying Value	Fair Value		
Financial Liabilities				
Advances from related parties	₱ 440,905,301	₱433,707,065	Level 2	(a)
Borrowings	413,082	375,276	Level 2	(a)
	₱ 441,318,383	₱ 434,082,341		

The methods and assumptions used by the Group in estimating the fair value of the financial instruments are as follows:

- (a) The fair values of advances to related parties and advances from related parties are determined based on the discounted value of future cash flows using the prevailing PHP BVAL rates that are specific to the tenor of the instruments' cash flow as at reporting date. Discount rates used is 5.21% in 2022 and 11.660% and 3.2512% in 2021.
- (b) The fair values are based on combination of appraisal done by an independent appraiser on various dates in 2022 and using the market approach, in which the fair value is based on prices recently paid for similar assets, with adjustment made to the indicated market prices to reflect condition and utility of the appraised assets relative to the market comparable.

The fair value of cash in banks, trade and other receivables, accounts payable and other liabilities (excluding government liabilities), lease liability and advances from lessees approximate carrying value due to relatively short-term maturities.

28. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The reconciliation about the changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes for the years ended December 31 are as follows:

<u>December 31, 2022</u>	<u>Balance as at January 1, 2022</u>	<u>Changes from financing cash flows</u>	<u>Balance as at December 31, 2022</u>

Direct cost and operating expenses for the 2nd quarter of 2023 totaled ₱7.5 million as compared to ₱7.6 million for the 2nd quarter of 2022 or a decrease of ₱0.1 million or 2.13%. The amount was recorded and mainly attributable to the following:

1. Direct cost for the 2nd quarter of 2023 and 2022 consists of security services, depreciation expense, property taxes and repairs and maintenance. Total direct cost recorded for the 2nd quarter of 2023 amounted to ₱0.8 million and ₱2.8 million for the 2nd quarter of 2022. Decrease is due to no reported expenses rather than the depreciation expense in the 2nd quarter of 2023.
2. Operating expenses for the 2nd quarter of 2023 increase by ₱1.8 million or 37.69% as compared to the 2nd quarter of 2022, which resulted by the following movements: decrease in professional fees by ₱121,250 decrease in salaries and wages by ₱10,581, increase in taxes and licenses by ₱979,085 from payment of property taxes, decrease in rent, light and water by ₱68,663, decrease in commission by ₱33,481, increase in SSS, Medicare and EC contributions by ₱25,467 and increase in miscellaneous by ₱1,067,777 which includes classification of expenses like security services which is recognized as part of operating expense rather than direct cost as service is for the whole plastic city compound.

Other Income (Expenses) consist of interest income, other income and interest expense. Total Other Income (Expenses) for the 2nd quarter of 2023 and 2022 is ₱76,781 and ₱67,925, respectively. Increase in income in the 2nd quarter of 2023 was due less interest expense reported.

The Group does not recognize a finance cost for 2nd quarter of 2023 and 2022.

Performance Indicators

The Parent Company is in the process of discussing with potential investors for planned forays into new business lines. Its subsidiary, PCIC, ceased its manufacturing operation since 2002 due to the Asian crises and stiff business competition and had leased out its building facilities for revenue. The Group determines their performance on the following five (5) key performance indicators:

1. Revenue Growth – the company gauge its performances by determining Rental Income and the number of tenants for the year. For the 2nd quarter of 2023, the company has an average of ₱227,629 rental income per tenant or a decreased by ₱71,083 rental income per tenant or 23.80% as compared to 2nd quarter of 2022.

2. Receivables - the company assesses collection of receivables and management of credit by determining the past due ratio done through the aging of receivables. For the 2nd quarter of 2023, ratio of past due receivables to total outstanding was 99%. The current quarter exceeds the management gauge on past due receivables due to significant number of receivables from third parties which are no longer operating. These third parties are previous subsidiary of the Group. Appropriate provision for allowance for doubtful accounts was recorded.
3. Gross Profit Margin - this is derived by dividing the gross profit over the revenues amount. The 2nd quarter of 2023 has a gross profit margin of 85.97%, higher than the 2nd quarter of 2022. Increase pertains to higher rental income for the current quarter.
4. Working Capital – to meet the obligations of the company, it is measured by determining current assets over current obligations. Working capital ratio for 2nd quarter of 2023 was 421.22% as compared to 379.97% on the 2nd quarter of 2022. Increase is attributable to decrease in current assets by ₱8 million or 13.58% and decrease in current liabilities by ₱3.4 million or 22%.
5. Advances by the Affiliates - For the 2nd quarter of 2023, the company has total advances from affiliates amounting to ₱420.9 million or a decrease of ₱13.3 million from last year's ₱434.2 million balance.

Further discussion of accounts of which registered an increased or decreased by 10% or more follows:

Cash

The Group's cash decreased by ₱0.7 million or 12% for the 2nd quarter of 2023 as compared to 2nd quarter 2022 due to the following activities: (a) net cash provided in operating activities is ₱1.6 million, (b) net cash generated in investing activities is ₱1.8 million and (c) net cash used in financing activities ₱6.9 million.

Trade and Other Receivables

Trade and other receivables (net) decrease by ₱ million or 21% in the 2nd quarter of 2023 as compared to 2nd quarter of 2022. This is mostly attributable to the decrease in advances to third parties by ₱6.2 million, decrease in rental receivables by ₱1.7 million, decrease in receivable from related parties by ₱10.9 million and decrease in allowance for estimated credit losses by ₱5 million. Certain trade receivables were found to be impaired using the provisional matrix as determined by the management, hence, adequate amounts of allowance for impairment have been recognized (Note 22).

Advances to related parties

Advances to related parties decrease by ₱3.3 million or 12% in the 2nd quarter of 2023 as compared to the 2nd quarter of 2022 due to collection of advances in the current quarter.

Property and Equipment

There's a decrease in property and equipment amounting to ₱0.7 million or 52% on the 2nd quarter of 2023 as compared to 2nd quarter of 2022 due to depreciation.

Advances from lessees

Advances from lessees decrease by ₱2.8 million or 44% in the 2nd quarter of 2023 as compared to the 2nd quarter of 2022 due to some lease contracts already ended in the current quarter.

Deferred Asset and Liabilities

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The recognition of deferred tax assets is based on the assessment that the Group will generate sufficient taxable profit to allow all or part of the deferred tax assets will be utilized. The Group's deferred asset account in the 2nd quarter of 2023 increase by ₱37,466 or 358.46% as compared to the 2nd quarter of 2022 for newly recognized deferred tax not yet covered by allowance for impairment.

The Group also has deferred liabilities which was increased by ₱37,918 or 395.18% in the 2nd quarter of 2023 as compared to 2nd quarter of 2022 due to some new lease contracts entered in the current quarter.

Lease liability

Lease liability composed of current and non-current portion. The current portion increase by ₱101,543 or by 242.89% while the non-current portion increased by ₱48,323 or 100% in the 2nd quarter of 2023.

Borrowing

The Group's borrowings consist of current portion and non-current portion. The Group recorded a current borrowing portion amounting to ₱211,409 and ₱192,385 for the 2nd quarter of 2023 and 2022, respectively, with an increase by ₱19,024 or 10% and non-current borrowing portion amounting to nil and ₱413,082 for the 2nd quarter of 2023 and 2022, respectively.

(i) Summary of Material Trends, Events and Uncertainties

Wellex Industries, Inc.

The Parent Company has properties in Rodriguez (formerly Montalban), Rizal, with an aggregate cost of ₱52,335,000 as at June 30, 2023 and 2022. Land was received in exchange for its shares of stock in accordance with stock-for-assets swap arrangement entered into with various affiliates.

Land with aggregate carrying amount of ₱6,484,935 as at June 30, 2023 and 2022, was under litigation (Note 21).

As at June 30, 2023 and 2022, the Parent Company's properties are not subject to any liens or encumbrances.

The Company is considering re-entry into the real estate market, specifically the development of industrial estates/subdivisions, for which it has already gained sufficient expertise in its operations in Valenzuela City.

The Company had put on hold its plans to acquire a mining company with an existing MPSA with the Mines and Geosciences Bureau (MGB). This is due to the stringent requirements that the Department of Environment and Natural Resources (DENR) had placed on several dormant mining companies and the subsequent business slowdown in the industry as a result thereof.

(ii) Events that will Trigger Direct or Contingent Financial Obligation

There are no events that will trigger direct or contingent financial obligation that is material to Wellex Industries Inc. and its subsidiaries including any default or acceleration of an obligation.

(iii) Material Off-Balance Sheet Transactions, Arrangements, Obligations

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of Wellex Industries Inc. with unconsolidated entities or other persons created during the reporting period. The present activity of the company is focused on reorganizing its operations in preparation for its new businesses.

(iv) Commitment for Capital Expenditures

Since the Plastic City Industrial Corporation ceased in manufacturing and commercial operation there are no commitments on major capital expenditures.

(v) Any Known Trends, Events of Uncertainties (Material Impact on Net Sales / Net Income and Liquidity)

The Group has ceased manufacturing operations since 2002 and currently disposed to lease out its warehouse facilities. Rental Income recorded for the 2nd quarter 2023 compared to 2022 increase by ₱384,990 million or 7.58%.

As of June 30, 2023, there are twenty-two (22) lessees occupying twenty-four (24) areas such as the warehouses, shipyards, open spaces and extensions inside the Plastic City premise.

Current ratio (current assets over current liabilities) as of June 30, 2023 is 421.22% with current assets of ₱51 million over ₱12.1 million current liabilities. The Group's policy to address liquidity risk is to maintain a balance between continuity of funding through cash advances from the Parent Company and affiliates. Payment of current liabilities such as government taxes, employees' premium contributions, etc. was funded through these cash advances. The Group does not expect to pay its liabilities to related parties within twelve months after the reporting date. Furthermore, advances from affiliates and stockholders were

settled through assignment and offsetting among the Group.

(vi) Significant Element of Income or Loss That Did Not Arise from Continuing Operation

The Group adopted PFRS 16 using the modified retrospective approach, with recognition of transitional adjustments on deficit as at January 1, 2019, without restatement of comparative figures.

The Company has adopted the PFRS 9 Financial Instruments from January 1, 2018 and resulted in changes in accounting policies and adjusted amounts recognized in the financial statements. The comparative figures have been restated to comply with the transitional provisions in PFRS 9.

(vii) Material Changes on Line Items in Financial Statements

Material changes on line items in financial statements are presented under the “Management’s Discussion and Analysis of Financial Condition and Results of Operations”.

Please refer to the attached Annex A.1 to A.5.

(viii) Effect of Seasonal Changes in the Financial Condition or Results of Operations

The financial condition or results of operations is not affected by any seasonal change.

(ix) Financial Risk Disclosure

The Group is exposed to a variety of financial risk which results from both its operating and financing activities. The Group’s risk management is coordinated with the Board of Directors, and focuses on actively securing the short-term cash flows by minimizing the exposure to financial markets. The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. Please refer to Annex A.5.

(x) Disclosure under SEC Memorandum Circular No. 3, Series of 2012

PFRS 9, Financial Instruments (2014). PFRS 9, Financial Instruments replaces PAS 39 Financial Instruments – Recognition and Measurement, bringing together all three aspects of the accounting for financial instruments: classification and measurement, impairment, and hedge accounting. The standard requires all recognized financial assets that are within the scope of PAS 39 to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flow that are solely for payments of principal and interest on the outstanding balance are generally measured at amortized cost at the end of subsequent reporting periods. All other debts investments and equity investments are measured at their fair values at the end of subsequent reporting periods. For financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that are attributable to changes in the credit risk of that liability is presented in other comprehensive income would create or increase as accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability’s credit risk are not subsequently reclassified to profit or loss. The Company has adopted the PFRS 9 Financial Instruments from January 1, 2018 and resulted in changes in accounting policies and adjusted amounts recognized in the financial statements. The comparative figures have been restated to comply with the transitional provisions in PFRS 9.

1. CORPORATE INFORMATION, STATUS OF OPERATIONS AND MANAGEMENT PLANS

Corporate Information

Wellex Industries Incorporated (the 'Parent Company') was incorporated in the Philippines on October 19, 1956. The Parent Company engaged primarily in the business of mining and oil exploration and was known as Republic Resources and Development Corporation (REDECO). The Parent Company extended its corporate life for another 50 years up to October 19, 2056 which was approved by the Securities and Exchange Commission (SEC) on July 20, 2007.

The Parent Company's shares are listed and traded in the Philippine Stock Exchange (PSE).

The Parent Company wholly owns Plastic City Industrial Corporation (PCIC). PCIC ceased its manufacturing operations but PCIC subsidiaries have leased out their warehouse and building facilities.

The registered office address of the Parent Company is located at 35th Floor, One Corporate Center, Doña Julia Vargas Ave., cor. Meralco Ave., Ortigas Center, Pasig City, Philippines.

Status of Operations and Management Plans

For the quarter ended June 30, 2023 and 2022, the Group has incurred losses resulting in a deficit of ₱2,104,948,048 and ₱2,103,642,680, respectively. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and, therefore, the Group may be unable to realize its assets and discharge its liabilities in the normal course of business. Albeit these conditions, management believes that the Group will be able to meet all its outstanding obligations and continue to operate as a going concern.

To continue as a going concern, the officers and major stockholders of the Group have committed to provide full financial support to the Group to sustain its operations, meet the working capital requirements and settle obligations as they fall due.

In prior years, the Parent Company's planned business of mining and oil exploration became secondary to real estate and energy development. On January 28, 2008, the BOD approved the amendment of the Parent Company's primary purpose from a holding company to a company engaged in the business of mining and oil exploration.

The purpose of the amendment of the primary purpose was to enable the Parent Company to ride the crest of a resurgent mining industry and including oil exploration of the country's offshore oil fields. The Parent Company's strategy is to identify mining properties with proven mineral deposits particularly nickel, chromite, gold and copper covered by Mineral Production Sharing Agreements (MPSAs) and to negotiate for either a buy-out or enter into a viable joint venture arrangement. For its oil and mineral exploration activities, the Parent Company has identified and conducted initial discussions with potential investors.

However, the continuing global financial crises dampened the metal and oil prices that adversely affected the investment environment of mining and oil, and mineral exploration industry of the country. To finance its operating expenses, the Parent Company obtains advances from related parties.

The Group has put on hold its plan to acquire a mining company with an existing Mineral Product Service Agreement (MPSA) with the Mines and Geosciences Bureau (MGB). This is due to the stringent requirements that the Department of Environment and Natural Resources (DENR) had placed on several dominant mining companies and the subsequent business slowdown in the industry as a result thereof.

Redevelopment of the Plastic City Complex in Valenzuela

On December 17, 2012, the Group and other related parties entered into a Memorandum of Agreement (MOA) with Avida Land Corp (ALC) for the development of 21.3 hectares of land located in Valenzuela City into a residential clusters of condominium, townhouses, house and lots. Out of the total 21.3 hectares, 12.8 hectares (representing 60% of the aggregate area) was owned by the Group and its

affiliates and around 8.47 hectares were owned by related parties.

By virtue of a Rescission Agreement dated November 29, 2019, the Group elected not to pursue their Agreement with ALC for the development of the real estate. The project will now be undertaken in a joint venture with Philippine Estate Corporation (PHES), an affiliate, and will involve the conversion of the industrial state into a mixed-use hub with complimentary commercial, office and residential zones. The Group believes that it will increase the value of the property and will encourage the development and growth of a new Central Business District of Valenzuela.

Business and Operations

Based on current operation, the Group's cash requirements can be generated internally from rental income from the remaining lease contracts of its subsidiaries. The management believes that resources are sufficient for projected leasing plans for the next twelve months. However, should there be an opportunity for an interested business acquisition as related above, there might be a need to raise funds via a stock rights offering with the local course. In any case, the Group has substantial amount of advances to related parties which are realizable upon demand.

The Group will explore new business opportunities in the development of industrial estates, and to this end, ocular inspections for suitable raw land for development into industrial estates are being carried out in Cavite, Laguna, Batangas and Bulacan. Discussions have been carried out with local government city planning officials in order to determine which sites are candidates for long-term success and the Group is in constant communication with urban planners and construction engineers in order to fully understand the financial feasibility models for the development of these industrial estates.

In addition, due to high demand in parking spaces and warehouses nowadays, management is eyeing to convert its unused land in Valenzuela into open parking spaces and renovate its vacant buildings into new warehouses for rent.

Project manpower will be outsourced when the operations commence and as the need arises. Technical and managerial positions will be filled when future operations commence in either the mining sector or industrial estate development. A capital-infusion and build-up program will address the Group's financial standing, the size and timing of which will be directly related to the planned entry into new business endeavors.

The worldwide quarantine brought about by the COVID-19 Omicron variant had caused some slowdown in the business momentum of the country. Despite the easing of international travel, there is still some lingering reluctance of foreign investors to enter into new Philippine projects, management, however, is optimistic that economic normalcy is coming soon especially with the successful roll out of proven vaccines.

Consequently, the Group's consolidated financial statements have been prepared assuming that the Parent Company will continue as a going concern. The Group's consolidated financial statements do not include any adjustments relating to the recoverability and classification of the recorded assets or the recognition and classification of liabilities that might result from the outcome of this uncertainty.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below and in the succeeding pages. The policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). The term PFRS in general includes all applicable PFRS, Philippine Accounting Standards (PAS) and Interpretations issued by the former Standing Interpretations Committee (SIC), the Philippine Interpretations Committee (PIC) and the International Financial Reporting Interpretations Committee (IFRIC), which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC.

Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Functional and Presentation Currency

The consolidated financial statements are presented in Philippine peso (₱), the Group's functional currency. All amounts are rounded to the nearest peso except when otherwise indicated.

Current and Non-Current Classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- expected to be realized or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reported period.

All other assets are classified as non-current.

A liability is current when:

- it is expected to be settled in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and tax liability are classified as non-current assets and non-liabilities, respectively.

Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Parent Company and subsidiaries it controls. Control is achieved when the Parent Company has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to use its power to affect its returns. The Parent Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of these three elements of control.

When the Parent Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

Consolidation of subsidiaries begins when the Parent Company obtains control over the subsidiaries and ceases when the Parent Company loses control of the subsidiaries. Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statements of comprehensive income from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiaries.

The financial statements of the subsidiaries are prepared for the same reporting year, using accounting policies that are consistent with those of the Parent Company. Intra-group balances, transactions, income and expenses, and profits and losses resulting from intra-group transactions are eliminated in full in the consolidation.

Changes in the ownership interests in subsidiaries that do not result in the loss of control are accounted for as equity transactions.

If the Parent Company loses control over its subsidiaries, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resulting gain or loss is recognized in consolidated statements of comprehensive income.

Composition of the Group

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at June 30, 2023 and 2022. The details of its subsidiaries are as follows:

Subsidiaries	Principal Activity	Ownership	
		2023	2022
Direct Ownership			
PCIC	Manufacturing	100%	100%
Indirect Ownership (Subsidiaries of PCIC)			
ICC	Manufacturing	100%	100%
KCC	Manufacturing	100%	100%
PPC	Manufacturing	100%	100%
Rexlon Industrial Corporation (RIC)	Manufacturing	100%	100%

a) Direct ownership

PCIC

PCIC and its subsidiaries have ceased operations but have leased out their warehouse facilities. The intention of the Group is to continue its operation by focusing on “injection molding” due to its very encouraging prospect and which has shown to have a high viability rating that will contribute highly towards the Group’s maximum operation and financial position. Management is continuously in search for reliable joint venture partners who have the means to continue its operations.

b) Indirect ownership

ICC

ICC was incorporated in the Philippines and registered with the SEC on June 23, 1981, primarily to engage in the manufacture of plastic containers. The Company ceased its commercial operations on July 30, 2000, and has leased out its buildings as warehouses.

KCC

KCC was incorporated in the Philippines and registered with the SEC on February 14, 1983. The Company was established to manufacture all kinds of plastic containers. The Company ceased its commercial operations on April 30, 2002, and has leased out its buildings as warehouses.

PPC

PPC was incorporated in the Philippines and registered with the SEC on October 1, 1982. The Company was established primarily to manufacture plastic raw materials, rigid and non-rigid plastic products, plastic compounds, derivatives and other related chemical substances. The Company ceased its commercial operations on May 16, 2002, and has leased out its buildings as warehouses.

RIC

RIC was incorporated in the Philippines and registered with the SEC on October 9, 1984. The Company was engaged in the business of manufacturing and molding plastic products. The Company ceased its commercial operations on April 30, 2002.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial years except for the following new and amended PFRS that are mandatorily effective for annual periods beginning on or after January 1, 2022.

Property, Plant and Equipment before Intended Use (Amendments to PAS 16). The amendments to PAS 16, Property, Plant and Equipment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the

asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment. Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities. The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

Reference to the Conceptual Framework (Amendments to PFRS 3). Minor amendments were made to PFRS 3, Business Combinations to update the references to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of PAS 37, Provisions, Contingent Liabilities and Contingent Assets and Philippine Interpretation IFRIC 21, Levies. The amendments also confirm that contingent assets should not be recognized at the acquisition date. The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

Onerous Contracts – Cost of Fulfilling a Contract (Amendments to PAS 37). The amendment to PAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract. The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

Annual Improvements to PFRS Standards 2018–2020

- *PFRS 9, Financial Instruments* – clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- *PFRS 16, Leases* – amendment of illustrative example 13 to remove the illustration of payments from the lessor relating to leasehold improvements, to remove any confusion about the treatment of lease incentives.

The annual improvements are effective for annual periods beginning on or after January 1, 2022. The amendments had no significant impact on the consolidated financial statements of the Group.

New Accounting Standards, Interpretations and Amendments to Existing Standards Effective Subsequent to January 1, 2022

Standards issued but not yet effective up to the date of the Group's consolidated financial statements are listed below. This listing of standards and interpretations issued are those that the Group reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Group intends to adopt these standards when they become effective.

Classification of Liabilities as Current or Noncurrent (Amendments to PAS 1). The narrow-scope amendments to PAS 1, Presentation of Financial Statements clarify that liabilities are classified as either current or noncurrent, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (eg the receipt of a waiver or a breach of covenant). The amendments also clarify what PAS 1 means when it refers to the 'settlement' of a liability. The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine classification and for some liabilities that can be converted into equity. The amendments are effective for annual periods beginning on or after January 1, 2024, with earlier application permitted.

Disclosure of Accounting Policies (Amendments to PAS 1 and PFRS Practice Statement 2). The narrow-scope amendments PAS 1, Presentation of Financial Statements require entities to disclose material accounting policy information instead of significant accounting policies. The amendments also clarify the following: (1) accounting policy information may be material because of its nature, even if the related amounts are immaterial; (2) accounting policy is material if users of an entity's financial statements would need it to understand other material information in the statements; and (3) if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information. Further, the amendments provide several paragraphs to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material. In addition, PFRS Practice Statement 2 has been amended by adding guidance and

examples to explain and demonstrate the application of ‘four-step materiality process’ to accounting policy information in order to support the amendments to PAS 1. The amendments are applied prospectively. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted. Once the entity applies the amendments to PAS 1, it is also permitted to apply the amendments to PFRS Practice Statement 2.

Definition of Accounting Estimates (Amendments to PAS 8). The amendments to PAS 8, Accounting Policies, changes focus entirely on accounting estimates and clarify the following:

- The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”.
- Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.
- A change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.
- A change in an accounting estimate may affect only the current period’s profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognized as income or expense in the current period. The effect, if any, on future periods is recognized as income or expense in those future periods.

The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Deferred Tax Related to Assets and Liabilities arising from Single Transaction (Amendments to PAS 12). The amendments clarify that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary difference arise on initial recognition. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Lease Liability in a Sale and Leaseback (Amendments to PFRS 16). The amendment clarifies the how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in PFRS 15 to be accounted for as a sale. The amendments to PFRS 16 specifies that, in subsequently measuring the lease liability, the seller-lessee determines ‘lease payments’ and ‘revised lease payments’ in a way that does not result in the seller-lessee recognizing any amount of the gain or loss that relates to the right of use it retains. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Noncurrent Liabilities with Covenants (Amendments to PAS 1). The amendment clarifies how conditions with which an entity must comply within twelve months after the reporting period affect the classification of liability. Only covenants with which an entity is required to comply on or before the reporting date affect the classification of a liability as either current or non-current. In addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become repayable within twelve months. The amendments are effective for annual periods beginning on or after January 1, 2024.

Deferred Effectivity

PFRS 10, Consolidated Financial Statements and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments). The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors’ interests in the associate or joint venture. On January 13, 2016, the FRSC deferred the original effective date of April 1, 2016 of the said amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Group has not early adopted the previously mentioned new, amended and improved accounting standards and interpretations. The Group continues to assess the impact of the above new, amended and improved accounting standards and interpretations that are effective subsequent to January 1, 2022 on its consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

Determination of Fair Value and Fair Value Hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Fair value measurement disclosures of financial and non-financial assets are presented in Note 27 to the consolidated financial statements.

“Day 1” Difference

When the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a “Day 1” difference) in the consolidated statements of comprehensive income unless it qualifies for recognition as some other type of asset or liability. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statements of comprehensive income when the inputs become

observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference amount.

Financial Instruments

Initial Recognition, Measurement and Classification

The Group recognizes financial assets and financial liabilities in the consolidated statements of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place are recognized on the settlement date.

With the exception of trade receivables that do not contain a significant financing component, financial assets and financial liabilities are recognized initially at fair value including transaction costs, except for those financial assets and liabilities at FVPL where the transaction costs are charged to expense in the period incurred. Trade receivables that do not contain a significant financing component are recognized initially at their transaction price.

The Group classifies its financial assets as subsequently measured at amortized cost, fair value through other comprehensive income (FVOCI) and FVPL.

The classification of financial assets depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing the financial assets. The Group’s business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Group’s business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Group classifies its financial liabilities as subsequently measured at amortized cost using the effective interest method or at FVPL.

The Group does not have any financial instruments that are measured and classified at FVPL.

Financial Assets at Amortized Cost

Financial assets are measured at amortized when both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, financial assets at amortized cost are subsequently measured using the effective interest method less allowance for impairment. Gains and losses are recognized in the statements of comprehensive income when the financial assets at amortized cost are derecognized, modified or impaired. These financial assets are included in current assets if maturity is within twelve (12) months from the end of reporting period. Otherwise, these are classified as noncurrent assets

As at March 31, 2023 and 2022, included under financial assets at amortized cost are the Group’s cash, trade and other receivables, and advances to related parties (see Notes 4, 5 and 20).

Cash

The Group’s cash includes cash on hand and in banks. Cash in banks earn interest at respective bank deposit rates.

Trade and other receivables

Receivables consist of trade receivable, advances to third parties, rental receivable and utilities receivable.

Advances to related parties

Represent non-interest bearing cash advances to related parties for working capital requirements.

Equity Instruments Designated at FVOCI

Upon initial recognition, the Group may make an irrevocable election to present in other comprehensive income changes in the fair value of an equity investment that is not held for trading. The classification is determined on an instrument-by-instrument basis.

When the equity instrument is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is not subsequently reclassified to profit or loss, but is transferred to retained earnings. Dividends on such investments are recognized in profit or loss when the right of payment has been established, except when the dividends represent a recovery of part of the cost of the investment, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment. These financial assets are classified as noncurrent assets.

As at June 30, 2023 and 2022, the Group elected to classify irrevocably its unquoted equity investments under this category (see Note 7).

Financial Liabilities at Amortized Cost

Financial liabilities that are not contingent consideration of an acquirer in a business combination, held for trading, or designated as at FVPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

As at June 30, 2023 and 2022, included in financial liabilities at amortized cost are the Group's accounts payable and other liabilities, borrowings, advances from related parties, lease liability and advances from lessees (see Notes 11, 12, 20 and 22).

Accounts payable and other liabilities

Accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other current liabilities include non-trade payables and accrued expenses.

Advances from related parties

Represents cash advances to related parties for working capital requirements.

Advances from lessees

Represent payment of advance rental which shall be refunded without interest on the expiration of the lease or pre-termination of the lease period.

Borrowing cost

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the consolidated statements of comprehensive income in the period incurred.

Lease liability

Lease liability represents the Group's obligation to make lease payments for all leases with a term of more than twelve (12) months, unless the underlying asset is of low value is effectively treated as a financial liability which is measured at amortized cost, using its incremental borrowing rate as the discount rate.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Derecognition of Financial Instruments

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to third party under a “pass-through” arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability was discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

Impairment of Financial Assets

The Group recognizes an allowance for ECL for all debt instruments that are measured at amortized cost or at FVOCI. ECL is a probability-weighted estimate of credit losses over the expected life of the financial asset.

Credit losses are the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. The expected cash flows include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Group assesses at each end of the reporting period whether the credit risk on a financial asset has increased significantly since initial recognition. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to the lifetime ECL. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to 12-month ECL. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within twelve (12) months after the reporting period.

For trade and other receivables, the Group applies a simplified in calculating ECL. The ECL on these financial assets are estimated using a provision matrix based on the Group’s historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment, including time value of money where appropriate.

For advances to third parties and related parties, the Group applies a general approach in calculating ECL. The Company recognizes a loss allowance using management’s adopted policy on ECL at the end of each reporting period.

When the credit risk on financial instruments for which lifetime ECL have been recognized subsequently improves, and the requirement for recognizing lifetime ECL is no longer met, the loss allowance is measured at an amount equal to 12-month ECL at the current reporting period, except for assets for which simplified approach was used.

The Group recognizes impairment loss (reversals) in consolidated statements of comprehensive income for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of the financial asset in the consolidated statements of financial position.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the end of reporting period with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. the extent to which the fair value of a financial asset has been less than its amortized cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are one (1) day past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the end of reporting period. A financial instrument is determined to have low credit risk if:

- the financial instrument has a low risk of default;
- the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or

- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group)

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than one (1) year past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lenders of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lenders would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes-off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables and contract assets, when the amounts are over five (5) years past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in consolidated statements of comprehensive income.

Prepayments and Other Current Assets

Prepayments are expenses paid in advance and recorded as asset before they are utilized. Prepayments are initially recognized at cost and subsequently measured at cost less any utilized portion and impairment loss. This account comprises prepaid items which are apportioned over the period covered by the payment and charged to the appropriate accounts in the consolidated statements of comprehensive income when incurred.

Prepayments that are expected to be realized for not more than twelve (12) months after the reporting period are classified as current assets; otherwise, these are classified as other noncurrent assets.

An impairment loss is recognized for the amount by which the assets carrying amount exceeds its recoverable amount. Prepaid expenses are derecognized upon consumption and usage.

Input value-added tax (VAT) and Other Prepaid Taxes

Input VAT is the indirect tax paid by the Group on the local purchase of goods or services from a VAT-registered person. Creditable withholding tax pertains to taxes withheld by the customers upon payment and is to be deducted from income tax payable of the Group.

The Group's input tax and other prepaid taxes are initially recognized at face value and subsequently measured at face value less provision for impairment, if any. Allowance for unrecoverable input tax and other prepaid taxes, if any, are maintained by the Group at a level considered adequate to provide for potential uncollectible portion of the claims. The Group, on a continuing basis, makes a review of the status of the claims designed to identify those that may require provision for impairment loss.

Property and Equipment

Property and equipment are tangible assets that are held for use supply of services, for rental to others, or for administrative purposes, and are expected to be used during more than one (1) period.

Property and equipment are initially measured at cost. The cost of property and equipment comprises its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location of its intended use.

Subsequent to initial recognition, property and equipment are carried at cost less accumulated depreciation and any impairment in value.

Expenses that provide incremental future economic benefits to the Group are added to the carrying amount of an item of property and equipment. All other expenses are recognized in the consolidated statements of comprehensive income as incurred.

Depreciation of property and equipment commences once the property and equipment are available for use and computed using the straight-line basis over the estimated useful life of property and equipment as follows:

	In Years
Buildings and improvements	5 to 50
Machinery and equipment	4 to 32
Transportation equipment and tools	5 to 10
Furniture and fixtures	3 to 10
Right-of-use Asset	2

The useful lives and depreciation method are reviewed annually to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment are retired or otherwise disposed of, the cost and the related accumulated depreciation and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations. Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged against current operations.

Investment Properties

Investment properties are for rental and capital appreciation, and not occupied by the Group.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties (except land) are carried at cost less accumulated depreciation and any impairment in value. Land is carried at cost less any impairment in value.

Expenses that provide incremental future economic benefits to the Group are added to the carrying amount of an item of property and equipment. All other expenses are recognized in the consolidated statements of comprehensive income as incurred.

Depreciation is computed using the straight-line method over the following estimated useful lives:

	In Years
Buildings and improvements	50
Land improvements	5

Investment properties are derecognized when either they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statement of comprehensive income in the year of retirement or disposal.

A transfer is made to investment property when there is a change in use, evidenced by ending of owner-occupation and commencement of an operating lease to another party. A transfer is made from investment property when and only when there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. A transfer between investment property, owner-occupied property and inventory does not change the carrying amount of the property transferred nor does it change the cost of that property for measurement or disclosure purposes.

Interest in Joint Operation

The Group has entered into joint operations for the development of properties.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When a Group undertakes its activities under joint operations, the Group as a joint operator recognizes in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly.
- Its liabilities, including its share of any liabilities incurred jointly.
- Its revenue from the sale of its share of the output arising from the joint operation.
- Its share of the revenue from the sale of the output by the joint operation.
- Its expenses, including its share of any expenses incurred jointly.

The Group accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the PFRS applicable to the particular assets, liabilities, revenues and expenses.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a sale or contribution of assets), the Group is considered to be conducting the transaction with the other parties to the joint operation, and gains and losses resulting from the transactions are recognized in the Group's consolidated financial statements only to the extent of other parties' interests in the joint operation.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a purchase of assets), the Group does not recognize its share of the gains and losses until it resells those assets to a third party.

Impairment of Non-Financial Assets

At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). When the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted at their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized as an expense immediately.

When an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increase to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income.

Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are measured (initial and subsequent) at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Capital stock

Capital stock represents the par value of the shares of the Parent Company that are issued and outstanding as of reporting date.

Additional paid-in Capital

Additional paid-in capital includes any premium received on the initial issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Treasury shares

Treasury shares are own equity instruments which are reacquired and are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively.

When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Treasury shares represent capital stock of the Parent Company that is owned by its subsidiary.

Deficit

Deficit includes all current and prior period results of operation as disclosed in the consolidated statements of comprehensive income.

Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the entity and the amount of revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for services provided in the normal course of business.

Rental income

Rental from investment properties that is leased to a third party under an operating lease is recognized in the consolidated statements of comprehensive income on a straight-line basis over the lease term. Rental received in advance is treated as advances from lessees and recognized as income when actually earned.

Interest income

Interest income is accrued on a time proportion basis, by reference to the principal amount outstanding and at the effective interest rate applicable.

Other income

Other income is income generated outside the normal course of business and is recognized when it is probable that the economic benefits will flow to the Group and it can be measured reliably.

Expense Recognition

Cost and expenses are recognized in the consolidated statements of comprehensive income when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. Expenses in the consolidated statements of comprehensive income are presented using the functional method.

Direct cost and expenses

Direct cost and expenses are recognized as expense when the related services are rendered.

Operating expenses

Operating expenses constitute costs of operating and administering the business and are expensed as incurred.

Income Tax

The tax expense for the period comprises current tax only. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income. Deferred income tax is determined using tax rates and laws, in the period the temporary difference is expected to be recovered or settled, that have been enacted or substantively enacted as at reporting period.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each reporting date the Group reassesses the need to recognize previously unrecognized deferred income tax asset.

Deferred income tax assets are recognized for all deductible temporary differences, carrying forward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, carrying forward benefits of unused tax credits from excess of MCIT over RCIT and unused NOLCO can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax asset against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Leases

Group as Lessee

At inception of a contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group has elected to apply the practical expedient to account for each lease component and any non-lease components as a single lease component.

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group applies the practical expedient not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases is recognized as an expense on a straight-line basis over the lease term.

Group as Lessor

Leases wherein the Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating lease. Lease income from operating lease is recognized in the consolidated statement of comprehensive income on a straight-line basis over the lease term.

The Group determines whether an arrangement is, or contains a lease based on the substance of the arrangement. It makes an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

The Group is a party to operating leases as a lessor. Rentals received under operating leases are charged to consolidated statements of comprehensive income (net of any incentives).

Related Party Relationships and Transactions

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

Related party relationship exists when: (a) a person or a close member of that person's family has control or joint control, has significant influence or is a member of the key management personnel of the reporting entity or of a parent of the reporting entity; and (b) when any of the following conditions apply: (i) the entity and the Group are members of the same group; (ii) one entity is an associate or joint venture of the other entity; (iii) both entities are joint ventures of the same third party; (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third party; (v) the entity is a post-employment benefit plan for the benefit of employees of the Group; (vi) the entity is controlled or jointly controlled by a person as identified in (a) above; (vii) the entity or any member of a group of which it is part, provides key management personnel services to the Group or to the parent of the Company; (viii) a person identified in (a) above has significant influence over the entity or is a member of the key management personnel of the entity or of a parent of the entity.

In considering each possible related party relationship, attention is directed to the substance of the relationships, and not merely the legal form.

Retirement Benefits Obligation

The Group has no formal retirement plan for its employees as it does not meet the minimum number of employees required for the establishment of a retirement benefit plan, but accrues the estimated cost of retirement benefits required by the provisions of Republic Act (RA) No. 7641 (Retirement Law). Under RA 7641, the Group is required to provide minimum retirement benefits to qualified employees. The retirement cost accrued includes current service cost and estimated past service cost as determined under RA 7641.

Segment Reporting

A business segment is a Group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and return that are different from those of segments operating in other economic environments.

Operating segments are reported on the basis upon which the Group reports its primary segment information. Financial information on business segments is presented in Note 21.

Earnings (Loss) Per Share

Earnings (loss) per share are determined by dividing net income (loss) for the year by the weighted average number of common shares outstanding during the year, excluding common shares purchased by the Group and held as treasury shares.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. When the Group expects a provision or loss to be reimbursed, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in the consolidated statements of comprehensive income, net of any reimbursement.

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the consolidated financial statements.

Events After the Reporting Date

The Group identifies post-year events as events that occurred after the reporting date but before the date when the consolidated financial statements were authorized for issue. Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTION

The preparation of the Group's consolidated financial statements requires management to make judgments and estimates that affect amounts reported in the consolidated financial statements. These judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group believes the following represent a summary of these significant judgments and estimate and related impact and associated risks in the consolidated financial statements.

Significant Accounting Judgments in Applying the Group's Accounting

In the process of applying the Group's accounting policies, management has made the following judgments apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Leases

Group as lessee

The Group has entered into contract of lease for its office space it occupies. In determining the substance of the lease, the Group considered, among others, whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Based on management judgment, the Group's lease for its office space has substance of lease, thus, the Group recognized right-of-use asset representing the right to use the leased asset and lease liability representing its obligation to make lease payments.

Group as lessor

The Group has entered into property leases on its buildings classified as investment properties. The Group has determined that it retains all significant risks and rewards of ownership of the property as the Group considered, among others, the length of the lease term as compared with the estimated life of the assets. The Group's operating lease contracts are accounted for as non-cancellable operating leases. In determining whether a lease contract is non-cancellable, the Group considers the provisions in the lease

contract which among others, the payment of rental corresponding to the unexpired portion of the lease period. The Group accounts the lease of its buildings under operating lease in accordance with the provision of lease contract and terms of the lease.

Distinction between investment properties and interest in joint operation

The Group determines whether a property contributed to joint venture operations will be classified as investment properties or investment in joint venture. In making this judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by the Group or whether it will be retained as part of the Group's asset and treated as the Group's share in the joint venture, based on the provisions governing the joint venture agreement. The Group considers land contributed to the joint venture as its investment. The Group, in the normal course of business does not hold the property to earn rentals or for capital appreciation; accordingly, land invested in the joint venture is classified as interest in joint operation (see Note 9).

Realizability of input VAT

The Group reviews and assesses its input VAT for its recoverability. Factors which primarily affect the recoverability include the completeness of the supporting documentation, entitlement to claim VAT paid as input tax credit against output tax liabilities and future vatable revenue. As at June 30, 2023 and 2022, the Group assessed that its input VAT is recoverable in future periods.

The Group's input VAT amounted to ₱4,792,610 and ₱4,373,776 as at June 30, 2023 and 2022, respectively (see Note 6).

Operating segments

The Group is organized and managed separately according to the nature of business. The Group reports its segment information according to its activities. Reportable segment operation pertains to the Group's leasing activity, while the non-reportable segment operation pertains to manufacturing operation, and mining and oil exploration.

Provisions and contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition and disclosure of provision and disclosure of contingencies are discussed in Note 2.

Significant Accounting Estimates and Assumptions

Determination of ECL on trade and other receivables, and advances to related parties

The measurement of the allowance for ECL on financial assets at amortized cost is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 22.

The carrying amount of the Group's trade and other receivables amounted to ₱27,957,085 and ₱35,536,864 as at June 30, 2023 and 2022, respectively. Allowance for ECL recognized in the statements of financial position amounted to ₱81,472,859 and ₱86,474,558 as at June 30, 2023 and 2022, respectively (see Note 5).

The carrying amount of the Group's advances to related parties amounted to ₱23,839,530 and ₱27,180,858 as at June 30, 2023 and 2022, respectively. Allowance for ECL recognized in the statements of financial position amounted to ₱129,010,691 and ₱132,103,302 as at June 30, 2023 and 2022, respectively (see Note 18).

Useful lives of property and equipment, and investment properties

The Group estimates the useful lives of property and equipment, and investment properties, except land, are based on the period over which the assets are expected to be available for use. The estimated useful lives are reviewed and updated if expectations differ from previous estimates due to physical wear and tear. The estimation of the useful lives of the property and equipment, and investment properties is based on a collective assessment of industry practice and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above.

The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of the property and equipment, and investment properties would increase recorded operating expenses and decrease noncurrent assets.

The net carrying values of the Group's investment properties (except land) and property and equipment as at June 30, 2023 and 2022 are as follows:

	2023	2022
Property and equipment	P638,064	P1,338,181
Investment properties	44,463,473	47,357,468
	P45,101,537	P48,695,649

Impairment of non-financial assets

Non-financial assets are periodically reviewed to determine any indication of impairment. Though management believes that the assumptions used in the estimation of fair values are reasonable and appropriate, significant changes in these assumptions may materially affect the assessment of the recoverable amounts and any resulting impairment loss could have a material adverse effect in the results of operations.

The accumulated impairment losses on investment properties, investment in joint venture, and property and equipment amounted to P237,408,239, P47,641,000, and P80,120,199, respectively, as at June 30, 2023 and 2022 (see Notes 8, 9 and 10).

Retirement benefits obligation

The determination of the Group's obligation and cost of pension benefits is dependent on certain assumptions used by management in calculating such amounts. Any changes in these assumptions will impact the carrying amount of retirement benefit obligation. In estimating the Group's retirement benefit obligation, the Group used the minimum required retirement payment of 22 ½ days for every year of service as mandated by RA 7641. The Group also considers the employee's current salary rate and the employees' number of service years.

Retirement benefits obligation as at June 30, 2023 and 2022, amounted to P834,000 and P792,300, respectively (see Note 17). The Group believes that the retirement benefits obligation and retirement expense would not materially differ had the Group used projected unit credit method for the computation of retirement benefits because of minimal number of employees.

Deferred tax assets

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The recognition of deferred tax assets is based on the assessment that the Group will generate sufficient taxable profit to allow all or part of the deferred tax assets will be utilized.

The Group looks at its projected performance in assessing the sufficiency and timing of future taxable income. Based on management assessment, the Group would not be able to realize the deferred tax assets in the near future.

4. CASH

Cash as at June 30 are as follows:

	2023	2022
Cash on hand	P20,000	P20,000
Cash in bank	5,263,445	6,608,339
	P6,675,407	P6,628,339

Cash in banks earn interest at the respective bank deposit rates. Interest income earned from deposits amounted to P5,417 and P5,649 as of June 30, 2023 and 2022, respectively (note 16).

There is no restriction on the Group's cash as at June 30, 2023 and 2022.

5. TRADE AND OTHER RECEIVABLES – net

Trade and other receivables as at June 30 are as follows:

	2023	2022
Advances to third parties	₱100,644,242	₱106,829,974
Receivable from related parties - 18	318,506	11,215,841
Rental receivable - 19	1,836,560	3,506,948
Utilities receivable	535,922	268,985
Others	6,094,713	189,675
		122,011,423
Allowance for ECL	(81,472,859)	(86,474,558)
	₱27,957,085	₱35,536,864

Trade receivable pertains mainly to outstanding receivable from PHES pertaining to the Group's share in the proceeds of the lot sold in 2015 held as interest in joint venture.

Advances to third parties represent receivable from a previously disposed subsidiary.

Rent Receivable are non-interest bearing and are collectible within thirty (30) days. Other receivables include advances to employees and reimbursable expenses from PCIC subsidiaries' tenants.

Certain trade and other receivables were found to be impaired using the provisional matrix as determined by the management, hence, adequate amounts of allowance for impairment have been recognized

The movement in the allowance for ECL is as follows:

	2023	2022
Beginning Balance	₱86,474,558	₱90,825,700
Provision for ECL	(5,001,700)	(4,351,142)
	₱81,472,859	₱86,474,558

The Group's trade and receivables as at June 30, 2023 and 2022 are not held as collateral for its liabilities and are free from any encumbrances.

6. PREPAYMENTS AND OTHER CURRENT ASSETS

Prepayments and Other Current Assets as at June 30 are as follows:

	2023	2022
Creditable withholding tax	₱13,006,709	₱12,762,439
Input VAT	4,792,610	4,373,776
Other Prepaid Expenses	–	384,110
	₱17,799,319	₱17,520,326

As at June 30, 2023 and 2022, respectively, no provision for impairment has been recorded since management believes that the accounts are fully realizable.

7. FINANCIAL ASSET AT FVOCI

The Group's financial asset at FVOCI consists of investment in unquoted shares of stock amounting to ₱12,500,000 represents ownership in Bulacan Harbour Dev't. Corp. This investment is irrevocably designated at FVOCI as the Group considers this investment to be strategic in nature and it holds this investment to foreseeable future. The cost of the investment approximates its fair value.

The Group's financial assets at FVOCI as at June 30, 2023 and 2022 are not held as collateral for its financial liabilities.

New Carrying amount	₱974,016,347	₱-	₱47,357,468	₱1,021,373,815

Rental income earned on the above investment properties amounted to ₱5,463,095 and ₱5,078,105 for the quarters ended June 30, 2023 and 2022, respectively. While direct costs and expenses incurred on the buildings amounted to ₱0.8 million and ₱2.8 million in June 30, 2023 and 2022, respectively, shown under “Direct costs and expenses” in the statements of comprehensive income (see Note 14).

Fully depreciated investment properties still in use as at June 30, 2023 and 2022 amounted to ₱3,290,825.

The aggregate fair value of the investment properties amounted to ₱3,543,635,160 and 3,378,711,000, as at June 30, 2023 and 2022, respectively.

The fair values are based on combination of appraisal done by an independent appraiser on various dates in 2022 and using the market approach, in which the fair value is based on prices recently paid for similar assets, with adjustment made to the indicated market prices to reflect condition and utility of the appraised assets relative to the market comparable.

The fair value of the land was arrived using the sales comparison approach. This comparative approach, considers the sales of similar or substitute properties and related market data, and establishes a value estimate by process involving comparison. The value of the building and improvements was arrived at using cost approach. In the cost approach, an estimate is made of the current replacement/reproduction cost, new of the replaceable property in accordance with the prevailing market prices for materials, equipment, labor, contractor’s overhead, profit, fees and all other attendant costs associated with its acquisition, installation and construction in place, but without provision for overtime or bonuses for labor and premiums for materials.

The fair value information of investment properties is disclosed in Note 27.

Land with aggregate amount of ₱6,484,935 was under litigation as at December 31, 2021. However, in 2022, the land was swapped with another property which is about the same size and location that was owned by certain individuals (see Note 24).

Except from restrictions described above, there are no other restrictions on the realizability of its investment properties and no other contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

9. INTEREST IN JOINT OPERATION – net

The Group's investment in joint venture represents land contributed to the Joint Venture.

In July 1997, the Group, together with International Polymer Corp. (IPC), Pacific Rehouse Corp. (PRC) and Ropeman International Corp. (RIC), entered into a Joint Venture Agreement (the "Agreement") as Owners with Philippine Estates Corporation (PHES), as Developer for the Metrotech Industrial Park. Under the agreement, the owners contributed land with an approximate area of 29.5629 hectares located in Canumay, Valenzuela City, whereby PHES will develop into industrial estate in accordance with the plans mutually agreed by venturers.

The developer is entitled to forty percent (40%) of the net proceeds after deducting all relevant taxes, marketing and administrative expenses, and the remaining sixty percent (60%) of the shall constitute the owners share, divided proportionately to the areas of property contributed.

The carrying amount of joint venture asset is as follows:

	2023	2022

Track record of registration of securities

The Parent Company was originally registered as REDECO with the SEC on October 19, 1956. The Parent Company was listed with the PSE on January 9, 1958 with an initial registered 200,000,000 shares.

On May 25, 1995, the BOD and stockholders approved a reverse stock split and a subsequent increase in the authorized capital stock in line with its recapitalization program. Accordingly, on November 15, 1995, the Parent Company filed with the SEC a motion to effect a 1-for-5 reverse stock split which decreased its authorized capital from ₱75 million divided into 75 million shares to ₱15 million divided into 15 million shares, both with a par value of P1 per share. It was approved by the SEC on January 15, 1996. This was also done in order to recall all outstanding stock certificates and be able to account for the over-issuance of shares which management has decided to be absorbed by the Parent Company.

On January 8, 1996, the Parent Company filed with the SEC a motion to increase its authorized capital stock from ₱15 million divided into 15 million shares to ₱1 billion divided into 1 billion shares with a par value of P1. The increase was approved by the SEC on May 16, 1996. Subscriptions to the increase in authorized capital stock were made through stocks-for-assets swap.

On September 2, 1996, the Board of Directors and the stockholders approved a resolution to amend the Parent Company's Articles of Incorporation changing the par value per share of its capital stock from ₱0.01 to ₱1.00, removing the pre-emptive rights of shareholders and increasing the authorized capital stock from ₱500 million divided by 50 billion shares with a par value of ₱0.01 per share to ₱2.0 billion divided into 2.0 billion shares with a par value of ₱1.00 per share. The proposed amendments were approved by the SEC on September 27, 1996.

Relative to the approval of the proposed amendment, any part of such stock or other securities may, at any time, be issued, optioned for sale and sold or disposed of by the Parent Company pursuant to resolution of the Board of Directors, to such persons and upon such terms as the Board may deem proper, without first offering such stock or securities or any part thereof to existing stockholders.

On August 22, 1997, the Board of Directors and the stockholders approved a further increase in the Parent Company's authorized capital stock from ₱2.0 billion to ₱3.5 billion divided into 3.5 billion shares with a par value of ₱1.00 per share. On March 11, 1998, the SEC approved the increase in the Parent Company's authorized capital stock.

Treasury shares

Treasury shares represent 29,486,633 Parent Company's shares of stock acquired by Rexlon Industrial Corp. (RIC), a wholly owned subsidiary of PCIC, in prior years. In 2007 and 2009, RIC sold 13,000,000 and 16,476,633 shares of the Parent Company to a third party.

17. RETIREMENT BENEFITS OBLIGATION

The Group adopted Republic Act No. 7641 as its arrangement to provide retirement benefits to all its regular employees. In case of retirement, employees shall be entitled to receive such retirement benefits as may have been earned under the existing laws.

The movements in the defined benefit obligation recognized and presented as accrued retirement benefit obligation in the consolidated statement of financial position are as follows:

	2023	2022	2021
Balance at beginning of year	₱834,000	₱792,300	₱750,600
Retirement provision	-	-	-
Balance at end of year	₱834,000	₱792,300	₱750,600

The provision for retirement benefits in 2023, 2022 and 2021 were included under salaries, wages and employees benefit in the consolidated statements of comprehensive income. Management believes that

the defined benefit obligation computed using the provisions of R.A 7641 is not materially different with the amount computed using the projected unit credit method as required under PAS 19, Employee Benefits.

(a) Receivable from co-venture

The Group has outstanding receivable from PHES pertaining to the Group's share in the proceeds of the lot sold in 2015 held as interest in joint venture (Note 9). This receivable is unsecured, unguaranteed and to be settled in cash. In 2023, the receivable was offset to advances from stockholders.

(b) Receivable from related parties with common key management

The Group pays operating expenses on behalf of GMC. These receivables are normally collected the following year, unsecured, non-interest bearing and with no guarantee. The Group has also made offsetting arrangements to settle intercompany receivables and payables.

(c) Advances to related parties with common key management

PWL

On November 24, 2009, Philippine Veterans Bank foreclosed land to secure payment of loan of an affiliate amounting to ₱88.8 million by virtue of the real estate mortgage, executed by the Group. The property was sold at an auction to the highest bidder Philippine Veterans Bank which tendered an amount of ₱71.326 million.

The Group recognized advances to PWL of ₱105.6 million for the value of the land foreclosed to settle the affiliate loan with the bank.

The advances are unsecured, with no definite terms of repayment and with no guarantee and to be settled in cash.

TWGI

On December 16, 2020, TWGI issued promissory note amounting to ₱46,578,262 for five years maturing December 15, 2025 and bear an interest of 2% per annum. Interest income earned amounted to ₱465,783 and ₱465,783 as of June 30, 2023 and 2022, respectively.

To settle the outstanding advances, the Group entered into the following contracts with TWGI, which in return, amounts incurred will be applied to the outstanding advances:

- The Group entered into a Consultancy Agreement with TWGI which is valid until April 30, 2024. Total consultancy fees incurred for the quarters ended June 30, 2023 and 2022, amounted to ₱120,000.
- Lease Agreement for the Group's office space for a monthly rental of ₱12,500, utilities of ₱5,000, and storage fee of ₱1,000 which is valid from April 30, 2024. The Group recognized the asset as 'right-if-use asset' and corresponding lease liability. Total rent expense and utilities amounted to ₱37,500 and ₱18,000, respectively, for the quarters ended June 30, 2023 and 2022.

The present value of the lease liability as at June 30 is as follows:

	2023	2022
Current	₱143,349	₱41,806
Non-current	48,323	-
	₱191,672	₱41,806

The net carrying amount of the right-of-use assets recognized as at June 30, 2023 and 2022 is disclosed in Note 10.

CMC and PHES

The Group provided non-interest bearing and unguaranteed advances to CMC and PHES for working capital requirements. The advances are unsecured, with no definite terms of repayment and with no guarantee.

Certain advances to related parties were found to be impaired using the provisional matrix as determined by the management, hence, adequate amounts of allowance for impairment have been recognized (Note 22).

The movement in the allowance for ECL is as follows:

	2023	2022
Balance at beginning of year, as previously reported	₱129,010,691	₱132,103,302
Effect on adoption of PFRS 9	-	-
Balance at beginning of year, as restated	129,010,691	132,103,302
Provisions for ECL	-	-
At end of year	₱129,010,691	₱132,103,302

(d) Advances from related parties

In prior years, the Group obtained unguaranteed and non-interest-bearing cash advances from related parties intended to finance its operating expenses, capital expenditures and payment of outstanding obligations. The Group has not made any arrangement for the terms, security and guarantee on the advances as the subsidiaries has ceased its manufacturing operations. The advances are payable in cash upon settlement depending on the availability of funds. The Group was granted an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. The management assessed that the advances from the related parties are not expected to be settled within 12 months from the reporting period.

(e) PHES

In 2009, the Group and PHES executed unsecured promissory note (PN) for the advances with a term of five (5) years, and bear interest of three percent (3%) per annum, renewable upon agreement of the parties. This PN was renewed in 2014 with a three-year term which matured during 2018 at interest of two percent (2%) per annum. This cash advance is to be settled through cash payments. On December 29, 2016, the PN was renewed for three (3) years and matured in January 2021. The promissory note is extended for an additional three (3) years from January 31, 2021 to January 31, 2024.

(f) Advances from key management

The Group obtains non-interest bearing and unsecured advances from stockholders and key officers for working capital purposes. The advances have no guarantee and definite terms of repayment. Payment will depend on the availability of funds. The Group was granted an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. The management assessed that the advances from the related parties are not expected to be settled within 12 months from the reporting period.

(g) Remuneration of key management personnel

Directors' fees for the quarters ended June 30, 2023 and 2022 is NIL.

With the cessation of the subsidiaries operations in prior years and the Group is in tight cash position, management decided to suspend any form of compensation to key management and officers effective in 2004.

19. LEASES

The Group entered into lease contracts with various tenants for the rental of the Group's warehouse and building facilities. The lease term ranges from three (3) months to one (1) year and is renewable under such terms and conditions as the parties may agree, provided that at least ninety (90) days prior to the expiration of the lease period, the lessee shall inform the lessor in writing of his desire to renew the lease.

Lease contracts include payment of advance rental by the lessee which shall be refunded without interest on the expiration of the lease or pre-termination of the lease period, less any corresponding obligation and damages.

Outstanding advances from lessee amounted to ₱3,602,320 and ₱6,434,990 as at June 30, 2023 and 2022, respectively. Deferred rental income relative to the lease amounted to ₱1,958,480 as at June 30,

2023 and ₱3,131,517 as at June 30, 2022 as shown under "Accounts payable and other liabilities" account (Note 11).

Outstanding balance of receivable from tenants as at June 30, 2023 and 2022 amounted to ₱2,372,482 and ₱3,506,948, respectively (Note 5). Total rental income is ₱5,463,095 and ₱5,078,105 in the quarter of June 30, 2023 and 2022, respectively.

20. INCOME/(LOSS) PER SHARE

The following table presents information necessary to calculate the loss per share for quarter ended June 30:

21. CONTINGENCIES

Commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group are not reflected in the accompanying Group financial statements. Management is of the opinion that losses, if any, from these commitments and contingencies will not have a material effect on the Group financial statements.

- A. *G.R. No. 249337 entitled, "WATERFRONT PHILIPPINES, INC. (WPI), WELLEX INDUSTRIES, INC. (WII), AND THE WELLEX GROUP, INC. (TWGI) vs. SOCIAL SECURITY SYSTEM (SSS)", pending before the Supreme Court*

On September 7, 1999, the Board of Directors approved the execution of a third-party real estate mortgage on the Group's properties located in Quezon City with an actual area of 6,678 square meters to secure the loan of Waterfront Philippines, Incorporated (WPI), an affiliate, with the Social Security System (SSS) amounting to ₱375 million. In 2003, SSS foreclosed the asset mortgaged in the amount of ₱198,639,000.

The Group filed a civil case against SSS on the foreclosed property claiming for sum of money and damages in the amount of ₱500 million. On January 12, 2015, the contract of loan and real estate mortgage were declared null and void by the RTC. Thus, WPI was directed to return the amount of ₱375 million to SSS and for SSS to return the properties and shares used as collateral. SSS filed an appeal to the Court of Appeals.

On August 30, 2019, the Court of Appeals issued its Decision reversing the RTC's Decision dated January 13, 2015 and Order dated May 11, 2015. The CA declared that the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock" and the extra judicial foreclosure sale of the Green Meadows properties covered by Transfer Certificate of Title Nos. N-153395 and N-153396 are valid.

The CA ordered WPI to satisfy the deficiency under the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock" in the sum of ₱841,567,136.85 due to SSS as of April 30, 2010. This obligation shall earn the stipulated interest and penalty charges, in accordance with the terms and conditions of the October 28, 1999 "Contract of Loan with Real Estate Mortgage and Assignment of Shares with Option to Convert to Shares of Stock", computed from April 30, 2010 until finality of the Decision.

On November 4, 2019, the Group together with WPI and TWGI filed a Petition for Review on Certiorari before the Supreme Court (SC). The SC in its decision dated July 6, 2021 granted the petition and the CA's Decision dated August 30, 2019 was reversed and set aside. SSS filed its Motion for Reconsideration dated January 28, 2022 praying for the dismissal of WPI's Petition for Certiorari. On September 21, 2022, the SC issued a resolution denying SSS's Motion for Reconsideration with finality. On December 20, 2022 the SC issued an Entry of Judgment.

To date, no decision has been rendered by the SC.

B. Wellex Industries, Inc. (formerly known as Republic Resources and Development Corporation) v. Macquarie Green Properties, Inc., et al., Civil Case No. 3185-19 SM (For: Annulment of Public Auction Sale, Reconveyance, Cancellation and Reinstatement of Title and Damages), Regional Trial Court (RTC), Branch 75, San Mateo, Rizal

On June 24, 2019, the Group filed a civil case for annulment of public auction reconveyance, cancellation and reinstatement of title and damages with the Regional Trial Court of San Mateo Rizal (RTC). The complaint filed was dismissed by the RTC through the Resolution dated October 30, 2019 for failure of the Group to pay the full jurisdictional amount. The Group filed Motion for Reconsideration arguing that it was ready and willing to pay the full jurisdictional amount had the Office of the Clerk of Court (OCC) made the proper assessment, which was its duty and in which assessment plaintiff merely relied on. The Group also argues that the rule on the payment of docket fees should apply by analogy since the deposit required is also a jurisdictional amount and, accordingly, should be given time to pay the deposit upon reassessment by the OCC. On February 10, 2020, the Motion for Reconsideration was dismissed for lack of merit.

On March 13, 2020, the case was escalated to the Supreme Court by filing a Petition for Review on Certiorari with the grounds that the RTC resolved the case in a way not in accord with the law and with the applicable decisions of the Supreme Court. Instead of dismissing the instant case, the RTC should have directed the Office of the Clerk of Court to assess the deposit, or the petitioner to make the correct deposit, required under Section 267 of R.A. 7160, consistent with the rule on the payment of jurisdictional amounts. On September 2, 2020, the Supreme Court denies the Petition for Review on Certiorari.

On October 27, 2020, the Group asked the Supreme Court to consider the Resolution promulgated on September 2, 2020 and to issue another reversing and setting aside the resolution dated October 30, 2019, and the resolution dated February 10, 2020 issued by the RTC, and directing the office of the clerk of Court of the RTC of San Mateo, Rizal to assess the filing fees and the amount of deposit and interest that should be paid by petitioner, and directing the RTC, Branch 75 of San Mateo, Rizal to reinstate the instant case.

On March 11, 2021, the Group received the notice from the Supreme Court dated January 25, 2021, denying the Motion for Reconsideration but before the Group can refile the case with the RTC, the Group received an offer from certain individuals to assume the above subject properties on an as-is-where-is basis on an exchange for their properties near the same location. The estimated values of the swapped properties are approximately the same. In order to avoid additional costs of a lengthy court dispute, the BOD has decided to accept the offer of asset swap in a special meeting held on December 17, 2021.

On February 23, 2022, the Group and certain individuals entered into a Memorandum of Agreement whereby both parties have voluntarily agreed, by and between themselves, to exchange their respective properties, on as-is-where-is basis. As of June 30, 2022, documentation on the asset swap are still in process.

22. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risk which results from both its operating and financing activities. The Group's risk management is coordinated with the Board of Directors and focuses on actively securing the short-term cash flows by minimizing the exposure to financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options.

The most significant financial risks to which the Group is exposed to are described below:

Credit risk

Credit risk refers to the risk that a counterparty will default its contractual obligation resulting in financial loss to the Group. The Group's credit risk is primarily attributable to its financial assets which composed of cash, trade and other receivables, instalment contract receivables and advances to related parties. The Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments, as summarized below:

Credit risk exposure

The Group's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements arises from the carrying amount financial assets recognized in the consolidated statements of financial position.

In order to minimize credit risk, the Group has developed and maintained internal credit risk gradings to categorize exposures according to their degree of risk of default. The Group uses its own trading records to rate its major customers and other debtors.

The Group's current credit risk grading framework is as follows:

Category	Description	Basis for recognizing ECLs	Base	Minimum allowance for credit losses	Stage
Performing	The counterparty has a low risk of default and does not have any past due amounts	12-month ECS	0%	0%	1
Doubtful	Amount is 1-30 days past due or there has been a significant increase in credit risk since initial recognition	Lifetime ECL-not credit impaired	25%	1%	2
	Amount is 31-90 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL-not credit impaired	25%	5%	2
	Amount is 91-180 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL-not credit impaired	25%	10%	2
	Amount is 181-360 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL-not credit impaired	25%	12%	2
In default	Amount is over 1-2 years oast due or there is evidence indicating the asset is credit impaired	Lifetime ECL-credit impaired	50%	15%	3
	Amount is over 2-3 years oast due or there is evidence indicating the asset is credit impaired	Lifetime ECL-credit impaired	100%	15%	3
	Amount is over 3-5 years oast due or there is evidence indicating the asset is credit impaired	Lifetime ECL-credit impaired	100%	50%	3
Write off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written-off	100%	100%	3

The maximum credit risk exposure of the financial assets is the carrying amount of the financial assets shown on the face of statement of financial position, as summarized below as at June 30:

		Basis of recognizing ECL	2023	2022
Cash, excluding cash on hand	(a)		₱5,263,445	₱5,980,739
Trade and other receivables, at net amount	(b)	Lifetime ECL	27,957,085	35,536,864
Advances to related parties, at net amount	(c)	Lifetime ECL	23,839,530	27,180,858
			₱57,060,060	₱68,698,461

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash as described below.

(a) Cash

The credit risk for cash in banks is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Cash in banks are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of ₱500,000 for every depositor per banking institution.

(b) Trade and other receivables and advances to related parties

Trade and other receivables

Credit risk arising from rental income from leasing of buildings is primarily managed through a tenant selection process. Prospective tenants are evaluated on the basis of payment track record and other credit information. In accordance with the provisions of the lease contracts, the lessees are required to deposit with the Group security deposits and advance rentals which helps reduce the Group's credit risk exposure in case of defaults by the tenants.

For existing tenants, the Group has put in place a monitoring and follow-up system. Receivables are aged and analyzed on a continuous basis to minimize credit risk associated with these receivables.

The Group has applied simplified approach to measure the loss allowance using management's adopted policy on ECL on trade and other receivables.

Advances to related parties

For advances to related parties, the Group has applied the general approach to measure the loss allowance at lifetime ECL. The Group determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

To measure the ECL, trade and other receivables, and advances to related parties have been grouped based on shared credit risk characteristics and the days past due. The Group has therefore concluded that the expected loss rates for trade and other receivables, and advances to related parties are a reasonable approximation of the loss rates for the financial assets.

The management continues to review trade and other receivables and advances to related parties for any legally enforceable right to offset with liabilities with the expressed intention of the borrower to settle on a net basis.

Impaired accounts represent account of third parties and related parties that have not paid for a long time and for which the Group believes that a portion of the receivables may not be collected. The allowance is estimated based on the Group's estimate for accounts which it believes may no longer be collected.

Equity Price risk

Equity price risk is the risk that the fair value of equity instrument decreases as a result of changes in the value of individual stocks. The Group's exposure to equity price risk arises from investments held by the Group and classified in the Group's consolidated statements of financial position as financial asset at FVOCI.

Equity instruments designated at FVOCI in unquoted price are held for strategic rather than trading purposes. The Group does not actively trade these investments.

Liquidity risk

The Group's policy is to maintain a balance between continuity of funding through cash advances from related parties.

The following table details the Group's remaining contractual maturity for its financial liabilities. The table below has been drawn up based on undiscounted cash flows of financial liabilities based on earliest date on which the Group can be required to pay.

*excluding government liabilities

Substantial portion of the Group's financial liabilities consist of advances from related parties. There are no specific terms of advances agreed with the related parties. The Group does not expect to pay its liabilities nor expect related parties to collect within twelve (12) months after the reporting date. Furthermore, advances from affiliates and stockholders were settled through assignment and offsetting among the Group.

23. CAPITAL RISK MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for stockholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group defines capital as share capital and deficit for the purpose of capital management.

Consistently with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including accounts payables and other liabilities, advances from related parties as shown in the consolidated statements of financial position) less cash. Total capital is calculated as Equity as shown in the consolidated statement of financial position plus Net debt.

Gearing ratio compares some form of owner's equity to borrowed funds. It is a measure of financial leverage demonstrating the degree to which the Group's activities are funded by owner's funds versus creditor's fund.

During the 2nd quarter of 2023, the Group's strategy, which was unchanged from 2022, was to keep the gearing ratio below 50% as proportion to net debt to capital. The gearing ratios as at June 30 were as follows:

	2023	2022
Gross debt	₱433,977,004	₱450,921,604
Cash	(5,283,445)	(6,000,739)
Net debt	428,693,559	444,920,866
Total equity	1,195,580,390	1,196,885,758
Total capital	1,624,283,949	1,641,806,624
Gearing ratio	26.39%	27.10%

The status of the Group's operation and management plan is fully disclosed in Note 1.

The Parent Company is subject to externally imposed capital requirement amounting to ₱6,250,000 which is the minimum paid-up capital requirement of SEC for mining companies. As at June 30, 2023 and 2022, the Parent Company is in compliance with this externally imposed capital requirement.

On the other hand, the Parent Company's subsidiaries are not subject to any externally imposed capital requirements.

24. FAIR VALUE INFORMATION

Assets and liabilities not measured at fair value

The methods and assumptions used by the Group in estimating the fair value of the financial instruments is as follows:

- (a) The fair values of advances to related parties and advances from related parties are determined based on the discounted value of future cash flows using the prevailing PH BVAL rates that are specific to the tenor of the instruments' cash flow as at reporting date. Discount rates used is 5.21% in 2023 and 2022.
- (b) The fair values are based on combination of appraisal done by an independent appraiser on various dates in 2022 and using the market approach, in which the fair value is based on prices recently paid for similar assets, with adjustment made to the indicated market prices to reflect condition and utility of the appraised assets relative to the market comparable.

The fair value of cash, trade and other receivables, instalment contract receivable, accounts payable and other liabilities, lease liability and advances from lessee's approximate carrying value due to relatively short-term maturities.

25. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The reconciliation about the changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes for the years ended June 30 are as follows:
